Logistics CF Container

Description:

- Lightweight
 Significantly reduces the overall weight of logistics container, helping to reduce transportation costs.
- High Strength
 Carbon fibre composites has extremely high strength properties, allowing the container to resist various external challenges and environmental changes, protecting the internal goods from damage.
- Design Flexibility
 easily meeting different packaging needs and providing
 customized solutions.

For Cold Chain Logistics

Carbon Fibre Composite Materials Business Unit / No.48,Sec. 1, Zhongshan Rd. Guiren Dist., Tainan City, 71142 Taiwan AS9100:D / JISQ 9100:2016 / EN 9100:2018 www.nanpao.com Tel: (06) 239-4766 E-Mail: sonic@nanpao.com
