

Mr. Carl A. Taylor
President & Chief Executive Officer
NYSEG
c/o NYSEG Corporate Offices
PO Box 5224
Binghamton, NY 13902-5224

[DATE here]

Dear Mr. Taylor:

We write to request that you put our names, home and e-mail addresses on all relevant contact lists to receive notices of public information meetings and project updates regarding the NYSEG-Avangrid proposed Oakdale-Lafayette transmission line. Please also let us know how and when NYSEG will fulfill this request.

We understand this request to be consistent with Article VII of the New York State (NYS) Public Service Law's requirements for applicants. We are property-owners residing in the proposed area and are concerned about the minimal public involvement, distribution of informational materials, and public outreach observed during the pre-application phase of this proposed project. We are also concerned about the potential impact of this project on our property values, neighborhood aesthetics, environment, health, and more.

We understand that, under NYS Eminent Domain Procedure Law's legislative history, landowners/stakeholders within the proposed project area are to be your partners in planning from a project's inception.

In sum, we wish to:

- Be involved in the planning, pre-application, & Public Service Commission (PSC) application stages of the proposed project,
- Discuss alternatives to NYSEG-Avangrid proposals,
- Examine mitigating measures, and
- Understand preliminary & revised proposals, in plain language & including clear maps.

Respectfully,

[Property owners' names & signatures here]

CC: John B. Rhodes, Chair, NYS Public Service Commission
