OUR STORY

We, here at CWD, are driven by our passion for this industry. Our Team has members with over 25 years worth of experience in domestic and international movements.

Our Story

At CWD LOGISTICS, we started as a small business with a big dream. We wanted to create a freight forwarding company that offered exceptional service and unparalleled expertise. We have grown into a trusted partner for businesses of all sizes, we continue to provide the same level of dedication and commitment to every shipment. On the 25th of April, this was recognized by the Commercial Motor magazine when CWD had a 5-page spread in one of the most-read haulage publications in the UK.

CWD'S ROLE WITHIN THE INDUSTRY

In addition to our feature in the Commercial Motor, CWD also regularly contributes to the RHA Regional Council as Jayson Churn, our Managing Director, holds a place there. As well as this we have also started to work with the Road Haulage Association to build the next generation of road transport professionals in the UK with the introduction of the Young Hauliers network, a place where young people in the industry can exchange ideas and develop professional skills.
