

2027

# Starter Guide

A Practical Guide to the  
[Dailyrun.tv](https://www.dailyrun.tv)

# 1 Introduction

The service guide was designed to make it easier to navigate the daily run's service platform as there are no user accounts on the dailyrun.tv but rather a seamless way to publish and access content.

The daily run is an online publication and syndication network featuring field stories, documentaries, bin marketing, commentary, brand promotions, and an exploratory platform to expand your network.

## Getting Started

The dailyrun.tv also requires a pivot account™ which is a short messaging system used for passcodes and private messaging to ensure a smooth transition in service. The pivot account is serviced by yayloop.com.

### Step-by-Step Instructions

- Invitation – To create a pivot account, go to [www.yayloop.com](http://www.yayloop.com) or visit the daily run marketplace and create a new publication and click on create pivot account from the new publication panel.
- Registrar – When you register to the pivot service, you will be required to disclose your full legal name, date of birth, gender, home country, visiting country (if applicable), and postal code.
- Premium – During the registration process, you will have the option to add private messaging for just \$9.99/year where you can send short messages and small images to other pivot users.
- Pivot ID – When you create a pivot account you will be assigned a pivot ID (e.g. (@jjanedoe555) where you can also send and receive up to \$700 per month to other pivot users.
- Password – If you forget your password to our pivot account, you can create a support ticket through VMAT to reset your passcode. The VMAT associate will also provide a reset code.

## What is a site badge?

A site badge is an information panel with the publisher's display name, location data, and contact information that cannot contain links or alternate numbers linked to friends or family or other businesses or institutions. If you market a hobbit listing, your site badge will have a donate button for sponsorship. (point system). However, all donated funds are managed from a central relief fund and review process.

If you market a sumi panel in our comfort service industry, you will have a "verify me" button on our public listing with a work registration certificate (valid for 30 days), If you book a comfort service worker, the reservation system will include a general assessment to ensure the client is of the required legal age of 32 and in good health. Please note that sumies are women 45 and older or 32 -44 years old with a sponsor.

## Checkpoint

When you submit a publication you will be required to enter your pivot email address and password to retrieve a one-time passcode.

### Expiration Date

Marketplace listings can only be listed for up to 30 days in increments of 7, 14, 30 days and there is a removal link at the bottom of each confirmation email. Please note that pivot emails cannot be manually deleted and emails are removed from our database after 90 days.

### Content Removal

To takedown content, each listing will have a report tab that links to a landing page to submit a takedown request by category. There are three categories for infringement, unlawful solicitation, or inappropriate content.

If a publication is placed under review with the rover division, it will generate a yellow notice that is sent to the daily run's rover division for review and the user's pivot account with counter claim instructions. A yellow pane and disclosure will also display on the publication page.

Additionally, all publications that are placed under review with the rover division will remain active until a red notice is issued. If the review panel determined the takedown request carries a violation, the publication will be removed from the daily runs' database, and the pivot account will be issued a red notice. Three red notices will disable the pivot account for 30 days and five or more red notices is a civil arrest until a personal board interview is scheduled through VMAT.

### System Checkup

We conduct system maintenance and disposition reviews every Sunday from 12 am – 9 am (EST) for where a review panel randomly select publications for review to ensure they are in compliance with laws and general policy.

Disposition reviews is a mental health spectrum segment that issues behavioral disposition reports (BDRs) that provides valuable insight into online conduct and behavior when there is vast indiscretion that questions one's sense of reality.

## 2 Circulation

Circulation is an advertising medium that consists of forum ads and marketplace publications that offers more expansive exposure and a channel to network and build connections faster.

The daily run's circulation segment is a great addition to the online marketplace that provides both an element of comfort and convenience and a resource hub that can be tapped into at anytime.

### Marketplace

When you create a marketplace publication there will be generic sections for the desired expiration date, category, descriptive information, headline, and site badge data. You can also upload up to 7 images..

The following are descriptive information for marketplace panels:

- **Clip n go** – This is a bin market with bin prices that ranges from \$10-\$25 and vehicles under \$4,999. This is a ecommerce platform where merchandise and vehicles must be picked up.
- **Pings** - These are special requests that provides an element of support and aid, and pings appear in the daily run's digital magazine (Berlusconi) with two distribution cycles.
- **Hobbit** – This is a migration service funded and sponsored by donors and the daily run. There are three different relocation packages with a monetary value ranging from \$5,000-\$12,500.
- **Pallets** – These are short ads that are used to promote a product or service. Pallets are designed to serve as a resource and a basic human necessity that promotes healthy routine.
- **Services**–This is a comfort service network for our sumi industry which specialize in conversational specialty providing both an outlet to explore and expand one's social circle.

The following are other circulation services:

- **Spreads** – Spreads are featured in the daily run's digital magazine (Berlusconi) and showcases talent, Temoss awardees, and photoshoots from our annual grand summit.
- **Billboard** – The billboard is a social network forum that functions as a central platform for hoisting and general announcements. It is also a great way to tap into additional resources.
- **Hosting** – Hosting is a 30-day rotation on the daily run's billboard with a social networking profile and visiting URL that can be used to promote a brand, image, or products and services.
- **Broadcasts** – The daily run impact channel allots airtime and live streaming of video content for nordic music talent, general talent, sports, documentaries, field stories, and commentary.

### Checkpoint

The daily run offers comfort services to clients ages 32-76 years old and this is an industry that was added to serve as a derailment into a safer mental space on comfort services that are often d tailed to adult clients in higher markets.

#### Make Reservations

If you market a sumi panel, you will have a "verify me" button on your public listing with a work registration certificate that is valid for up to 90 days depending on your time in service. For example if a comfort service worker, has 3 or more penalty points, their sumi panel will expire in 30 days in which the comfort service worker will have to publish a new sumi panel.

Please note that all comfort service workers are required to pay an annual service fee of \$129 and all profits are that of the comfort service worker as profit sharing did not fit into the daily run's institutional foundation as a benefit to our organization but rather to the sumi role and her labor.. Sumies are also required to visit a local law enforcement hub on an annual basis hub to be fingerprinted and cleared of warrants.

#### Fees and Schedules

If you book a comfort service worker, you will have access to their site badge with contact information linked to their pivot ID to prevent disclosure of personal information. The pivot ID can be used to communicate through the pivot service on yayloop.com and the comfort service worker must have a separate telephone line for scheduling that must be registered and verified by the daily run's security review board.

Sumi services include a basic service fee that ranges from \$25-\$45 per 1 hour session and travel pay up to \$130. Sumies can travel up to 72 miles from their place of residence; and local scheduling is not permitted in the city in which a comfort service worker resides for safety purposes along with sanctioned zones with high levels of prostitution) and drug administration. Gifts and tips are not permitted to lower the risk of lewd indiscretions and unlawful sexual encounters.. The comfort service network also has a separate payment portal through our main service provider that also serves as a money transfer service for certain transactions.

# WHO IS ELIGIBLE?

## LEVEL 1

### For news runners

News runners work in the field gathering news stories and offering a supportive foundation for any life altering circumstance.. News runners earn \$50 per field story with a contingency review score of 12 or higher and a \$35 commission for a TSI filing which is tier sensitive information with a non-disclosure classification which restricts public access. Contingency review scores are issued by the daily run's review panel and based on the quality of one's story, supporting details, and classification level (i.e. disclosure or non-disclosure). A disclosure classification provides access to the public in digital format that voids printable formats.

## LEVEL 2

### For sumi workers

Sumies (su'me) are comfort service workers ages 32-76 years old that specialize in ASMR therapy and service employees providing both an outlet for stress reduction and expand one's social circle. The role of a sumi is to serve as a resource and can be used for public marketing and functions that provides an element of comfort ASMR is also an expanded role which is an Autonomous Sensory Meridian Response (ASMR) massage therapy. However, the ASMR technique that is used by sumies is called the basal technique which is a light massaging onto the head and butt area while whispering soft tones to relax the mind. Client services include a basic service, and all bookings are through the daily run service main platform..

## LEVEL 3

### For direct workers

We are a flex work culture that work an average of 32 hours per week which is considered full-time status under our employee wellness program, that serves as a mental health track with less stressful conditions that increases employee morale and reduces abuse and criminal activity in the workforce.. We also utilize a different salary structure and benefit model where all non-commissioned employees are on a fixed wage bracket that ranges from \$38,900 - \$74,900 annually with paid time off, holiday bonuses (\$200 per day) for active labor, COLA increase every 2 years, and no overtime, and a healthcare enhancement program (HEP) that covers 70% of their monthly healthcare premium at any healthcare insurance provider.

## LEVEL 4

### For gap employees

During peak seasons, the daily run recruit gap employees. Gap employees work 12-18 hours per week and earn an hourly wage of \$58 per hour. plus, holiday bonuses for active labor and paid time off. All gap employees are also required to wear tether devices in some of our offices and clear biometrics to access information databases. We may also request polygraph testing for higher level positions and overtime authorizations because of how the psychological apparatus functions in a high security state on financial accessibility making excess access more of a debilitating channel that leads to higher levels of criminal temptation and abuse.

Extended stay .....	\$23

## What is a rate card?

An annual rate card is a rate reduction card that offers special discounts for group travel at Fort Bennington campgrounds. The annual rate card also comes with special incentives to include longer stays and club house access with outdoor pool and loungers, computers and telephones., Rate card members also have access to service homes (...mail services, restrooms, and laundry facilities) at no additional costs.

The first 12 months of service, rate card members will receive a 10% discount that increases to 25% after 12 months The rate card can be purchased through the pivot service under services which will also provide registration to other services to include tabanul services and a preregistration for mink card services that is limited to forty-three million administrator accounts..

# 3 Outreach

The hobbit outreach program is an emergency response service geared towards eradicating homelessness in the states we service. With a comprehensive restoration plan and remedial segments.

Hobbit is also an expansion segment that starts as a migration service on the daily run for migrant travelers moving into our service states with minimal to no resources or a strong support system.

## Coverage Map

The coverage map provides a more defined geographic data on where we operate and how we distribute resources.

The following is a breakdown of our coverage map:

- Full service – We provide full access in four American states where we concentrate most of our community resources. The full-service states were selected based on their safety index score.
- Grid Service –. We offer relief services in three American states that provide a gateway into our institution through migration services. The capsule states were selected based on their safety index score..
- Limited Service – We offer an emergency video helpline in non-service states to service employees, mink card members, and hobbit clients that are in of need emergency assistance.
- Foreign Nations – We are active in 18 foreign nations with a high tourist industry and vacation segment. These countries were also designated as green zones with high safety index scores.

## The Bandwagon

The bandwagon is an online migration portal for hobbit clients with direct access to the daily run platform. The funds raised through the bandwagon is divided using a point system and/or VMAT process (pivot account is required) to ensure funds are channeled appropriately. To sponsor a candidate for migration support, you must visit the main search engine on the dailyrun.tv website.. When a candidate is sponsored, the sponsor will have the option to make a direct deposit into the sponsees funding account up to \$10,000 or request an VMAT screening process to ensure funds are channeled appropriately which will also channel funds to another qualifying recipient if the sponsee does not meet clearance requirements.

A VMAT intake assessment determines a priority score and eligibility for an itinerary which is an approval status with a funding date and benefit amount. Please note that all intake assessments are conducted through VMAT which is a proprietary video interviewing service and the main customer service portal for mink card members and sub services. Therefore, it is imperative that candidates come prepared with a pen and paper, identification documents, and appropriate attire because during the interview the candidate will be required to pass an oral examination to assess basic cognitive functions and natural character.

## Checkpoint

The hobbit outreach program phases out the old developments built in homeless communities with a more developed foundation for growth.

### Problem

The homeless segment is an area of poverty that generates a grave institutional mindset on identity and growth that stagnates the cultural foundation because of vast abuse of its institution and procedural processes that debilitates growth in its most natural form.

### Solution

The hobbit outreach program is an expansive institutional structure that enables growth at the conditioned level which also carries greater institutional benefits in relation to identity, growth, and opportunities that remains equalized transitioning the new homeless segment onto a more progressive track.

### Benefits

The hobbit outreach program has four service divisions that work together to ensure clients are given the maximum support. The program service holding stations which is a substitute to homeless shelters that serve as an emergency drop in hub for clients awaiting a bed or billet. Holding stations also assist with emergency transport, food, clothing, and special aid.

There are also transitional services that offer reduce mortgage agreements (referred to a RMA rentals) under a rent to own buyer's contract. Hobbit also has wellness centers, which are 24-hour mental health drop-in centers that provides mental health referrals, wellness classes, emergency beds, and voucher services.

Hobbit also provides family reunification services with case management and transitional houses for women and children that are in need of housing and supportive services. Infirmaries are also used for recovery and mental health rehabilitation, and released clients are transitioned to per diem beds at partnered companies or in-patient care facilities in our service network for more advanced care..

# HOBBIT OUTREACH PROGRAM

## DIVISION 1

### VMAT Screening

VMAT is a virtual maintenance and accessibility ticket system and security infrastructure that operates video telephone services for our customer service division.. VMAT is used for intake assessments, employment services, password resets and authentications, transfer services, grievances, emergency response services, claims, memberships, voucher services, and account closure. VMAT also require biometric screening (i.e. a selfie, video introduction, ID upload, and a data profile sheet to perform certain functions and access services to verify identity and to prevent fraudulent activity and unauthorized access.

## DIVISION 2

### General Support

Hobbit offers case management services to low-income families that meet income and family household requirements.. The services that are offered through case management includes voucher assistance for food and reentry services to include family reunification services to assist with housing and court mandates. Approved clients will also be required to digitally sign a service agreement to include a behavioral health contract to reinforce the importance of proper conduct and moral epititude in our community that enables peaceful exchange.

## DIVISION 3

### ICP Assessment

Individual care plans is a top-up service that provides extended support and aid to migrant travelers that fall under exigent circumstances that requires immediate support and aid. Some examples of what an ICP covers include non-interest relief loans up to 3,000, housing vouchers that provides 18 months of rental assistance; and TAPP subsidies up to \$1,873 per month for eighteen consecutive months with a 12 month stand out period to reapply. TAPP subsidies are on rotation and serves 120 low-income households.

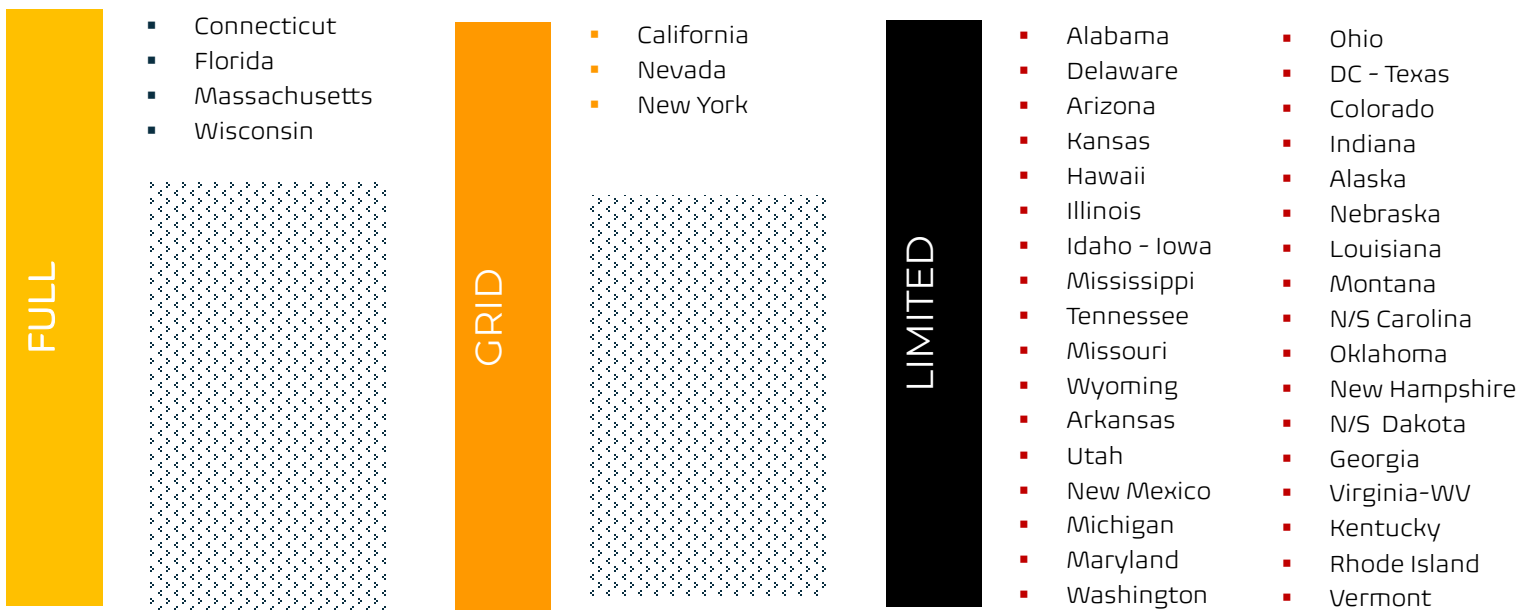

## DIVISION 4

### Rate Reduction

Per diem is a rate reduction program for migrant travelers, low-income families, and disabled persons. Per diem covers the first 90 days in an emergency housing establishment in our service network.. Thereafter, per diem clients that still need services, will receive a rate reduction at stop and drops based on family size and income. Stop and drops are hosted by families (limit is 3 persons per household) and small groups of 3-7 people that know each other to lift the discomfort when integrating people of non-familial status in close quarters.

# GCI PERCEPTION INDEX 2026

GCI perception index aggregates data from adhoc reports and HUMINT data analysis to make determinations into service access and risk reduction measures.

## Observation

The GCI perception index reflects on the United States historical atmosphere and institutional elements that lived under a protective element that shielded criminal interests and shifted the perceptual realm into a more dire state of security and union.. The Golstone Era also played a major role in its conditioning and political interests with quiet war periods and grand corruption eras that exposed the American institution and its political atmosphere in its more dire state of criminal computing and socialized abuse that captured a reality and institution that lacked in bearing shifting the perceptual realm in favor of the majority and its institutional affairs to extend security to their own institutions. The internalized issues are too problematic to unify into a cohesive structure with nationwide access into the American nation. Therefore, we divided the United States into divisional segments to maintain a healthy security atmosphere.

## Resolution

The enormous amount of sitting corruption in American nation contributes to its institutional reality and demarcated structure that continue to be passed on as a natural reality for the nation's historical atmosphere and heritage in each state culture transitioning their institutions into high criminal organizations through a heavy shift in the nation's mental apparatus governing the historical atmosphere in the most crippling way that benefited their institutions that were identified as criminal entities and psychiatric communities derailing the nation's growth through heavy tamper of race and institution. The key issue is the inability to stabilize the American institution without developing into warring factions and territorial groups associating its teachings with the wrong elements of growth and development shifting the mental apparatus into high impostor states that developed the nation's psychiatrically on identity.

# 4 Airtime

The daily run impact channel is a live broadcast network where viewers can stream video content for talent and brand promotions, private TV productions (TV app), commentary, documentaries, and chased stories.

The daily run impact channel also has a Go on Air portal that allots airtime in increments of 5-10 minutes to broadcast news released by news runners, commentary, nordic music talent, and general talent promotions.

## Introduction

The Go on Air portal is reserved for pivot accounts, and the reservation portal also maintains a queue of up to twenty-five broadcasters waiting to air their content.. All broadcasts are searchable for future viewing..

The following are the different broadcasting channels:

- Sports – This section covers commentary for all common sports and inventive sports. Inventive sports cannot carry any sexual connotation that causes discomfort or lewd in nature. .
- Music – This section is for our Nordic music industry that offer a space for inventive music and expression that showcases a creative side and passion for music and its foundation..
- Talent – This section is for general talent that includes artistry, dance, instrumental, analytical, technical, craftsmanship, architectural, mystical, and inspirational talent .
- The Floor – The floor features documentaries, brand promotions, and field stories released by news runners and content creators This service is free for non-commercial use.
- The Floor (On-air)- The on-air portal is for news commentary, consumer complaints, and product reviews. Broadcasts cannot contain company endorsements or recommendations.

## Roundtable

The roundtable with the daily run is a talk show that airs from our news studio in Stamford, Connecticut the last two Fridays of each month. This segment is an additional support channel and resource outlet.

There are two types of talk show cycles:

- Morning show – The morning show with Carlena Winehart and friends' is a talk show panel that invites up to 30 guests to the show for discussion panels and a special luncheon..
- Latenight show– The latenight show is a special broadcasting that serves as a source of help for the homeless community that travels in or lives locally in the Stamford area.

## Checkpoint

This section provides detailed information on how to report content violations and file infringement claims for live broadcasts.

### Report Abuse

To submit a takedown request for on air content, you must wait until the broadcast is recorded and assigned a post identification number in the daily run's search engine. Of note, each broadcast will link to a listing page to view content and report content violations. If a broadcast is placed under review with the rover division, it will generate a yellow notice that is sent to the daily run's rover division for review and the user's pivot account with counter claim instructions.

A yellow pane and disclosure will also display on the listing page. Additionally, all broadcasts that are placed under review with the rover division will remain active until a red notice is issued.. If the review panel determined the takedown request carries a violation, the broadcast will be removed from the daily runs' database, and the pivot account will be issued a red notice .Three red notices will disable the pivot account for 30 days and five or more red notices is a civil arrest until a personal board interview is scheduled.

### Infringement

To file an infringement claim, follow the same procedure for the takedown request for marketplace publications and select the infringement category. Please note that all broadcasts are linked to the publisher's pivot account, and all broadcasts require a verification process to release content. To prevent abuse, a takedown request requires a pivot email account to receive a one-time passcode to submit a takedown request for review.

Counter claim instructions are sent to the pivot user's pivot account, and it is a web-based form that requires that requires a verification process to prevent identity fraud and to ensure a faster turnaround time which generally takes 15-30 days to process a counter claim.

# Impact Channel

Daily Pass .....	\$0.99
Monthly access Card .....	\$14.99
Weekly service card .....	\$1.99

## FAST MARKET

For used vehicles .....	\$499
For rehab homes .....	\$999
Installment plan .....	\$95

The daily run impact channel (The black box) is a TV app featuring lifestyle shows, and survival game shows that provide an element of support to lifestyle choices and survival mechanism. The TV App also offer the same quality of viewing as standard television with an added benefit to our institution that affords us greater control over the type of content we air and more flexibility on access and charitable contribution.

We also sponsor commercials that meet certain advertising guidelines such as no actual images of persons or pets or perverse content that draws in discomfort. Commercials are also bonded by general audience access level so that commercials are conducive to all viewers that also require parental supervision for persons under 16 years of age.

## Red Robin

Red Robin is a monthly lottery that selects up to five entries each month with a compelling life story that warrants honorary. This is a nationwide service available in the United States.

**There are two types of honorary statuses:**

- Blue Ribbon– The blue ribbon is an honorary status awarded to lottery winners that fall into 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> place.. The blue ribbon is a lifechanging reward that comes with a cash gift and a Temoss image award..
- Gold Ribbon– The gold ribbon is an honorary status awarded to one person each month. The gold ribbon is a lifechanging reward that comes with a Temoss image award and a cash gift up to \$100,000.

# 5 Incubation

Brami communities are split housing developments that offer an affordable lodging option to budget travelers while also serving as an emergency housing resource and relief channel in time of need.

All brami communities have 52 standard rooms, 25 on each level and a cavern. Bramii communities are built from the ground up and this is an expansion segment and a private development owned by the daily run.

## Accommodations

Brami communities offer a more expansive service network, greater convenience, and a customer-friendly environment with lower costs, outreach services, and the following amenities and services:

- Nebula – The nebula is a community center equipped with a sitting lounge, televisions (...news channels only), microwaves, complimentary breakfast and coffee, and restrooms.
- Gabona– The gabona is a relaxation hub with hammocks and whirlpools. The gabona is by reservation only and this is a complimentary service that is available to all lodging guests.
- Trikes – Brami communities also have trikes for just \$12 per day. Trikes are 3-wheeled electric bicycles with pedal assist and can only be used for travel within 14 miles of the brami.
- Jacquerie – The jacquerie is where lodging guests pick up their linen, towels, and other essentials. There are also washers and dryers in the jacquerie and a maintenance service on request.

## Additional Perks

A cavern is an executive suite for business clients that is reserved for \$149 per night. The cavern comes with an office, bedroom, kitchen, peloton exercise bike, sitting lounge, and an ensuite bathroom,

- General Pricing– Brami rooms are priced at a weekly rate. This is also a registration fee per stay and an extended stay fee if a customer stays in the brami system for more than 90 days.
- Per Diem Rates – There is a per diem rate that is available to program clients. and emergency response transport which requires a call-in for authorization and rideshare voucher..
- Room amenities – All rooms come with a queen size bed, private bathroom, dresser, décor, table and chair, tiled floors, fridge, call box (maintenance, and reception), and premium Wi-Fi .
- Vehicle parking – All parked vehicles are subject to a \$15 parking fee per stay. However, guests can park their RVs (4 hubs) for up to 24 hours for free and utilize our hook up stations.

## Checkpoint

This section provides detailed information on how to make a brami reservation and access outreach services and interim assistance.

### Brami Reservations

To make a reservation, visit the brami community website at [www.bramimotels.com](http://www.bramimotels.com). All reservations will be assessed as a \$12 non-refundable booking fee and a \$25 deferred payment service fee that allow early bookings where the customer pays at the brami site on check-in. The delayed payment service is only offered to early bookings that are scheduled within 30 days from the check in date.

Brami customers also earn extended stay time every year if a customer stays in the brami network for more than 45 days in a calendar year. Extended stay time is reserved for emergency needs in the event a customer needs emergency housing, we can extend their stay time on a case-by-case basis with priority afforded to customers awaiting housing programs or SLA benefits.

### Alternative Housing

Fort Bennington is a expansion segment and an humanitarian aid development that serves as a emergency response referral service and a recreational site with tenting divisions (families, and singles) with preinstalled tents and sanitary tenting areas, and a welcome center, with storage lockers, 24 hour food galley (paid and vouchered), charging ports for scooters, ebikes, and mobile devices, along with toilets, club houses, showers, service homes (mail services, restrooms, and laundry facilities), RV stations, delivery ports for food and packages, donation center, electric buggies laundry services,, free shuttle service, and a recreational area.

Fort Bennington is open year-round and warming stations and log cabins are opened from September 12 –April 18 and during inclement weather when the temperature is below 62 degrees fahrenheit. There is also a recreational area with picnic tables and grill stations, club houses (...outdoor pool and loungers, computers, and telephones) and badminton courts,

# Get In Touch

VMAT is a video session with support associates that operate 24 hours. VMAT callers must login to their pivot account at [vayloop.com](http://vayloop.com) (service provider) to access the VMAT service. This is a proprietary system used in the mink card network and prelaunch on the daily run as a service provider to provide a robust customer service portal to the daily run.

## Bridge Insurance

Reliable car options (RELCO) offer bridge insurance which is a type of auto insurance policy that service vehicles that are purchased through the daily run's bin marketplace. RELCO offers comprehensive auto insurance at a flat rate of \$178 per month with a payout allowance. However, bridge insurance is only valid for 18 months from the date of purchase than the policyholder is referred to other insurance providers for coverage.

RELCO is only available in bilateral states (there are 7) and a valid driver's license from a bilateral state is required. However, high risk drivers will be required to pay a monthly recovery fee that ranges from \$49 - \$89 per month. RELCO is also a mink card brand that was extended to its sub network to function as a separate service industry. However, in the mink card program RELCO is a private car service linked to amway bus depots.

The following provides information on the claim process:

- Step 1 – To file a claim, you must provide proof of purchase with a transaction statement from a banking institution. Unfortunately, credit cards and cash payments are not acceptable payment methods due to high levels of fraud.
- Step 2 – Financial health assessments are used to determine affordability and payment plan. During the review process, we gather pay stubs, benefit letters, and a budget chart which may include additional supportive services and aid.
- Step 3 – Post option letter (POL) is issued to eligible applicants and include detailed information on pay out allowance (POA) that is covered under bridge insurance for your vehicle and the customer's portion which is 25% of the claim costs.
- Step 4 – Claiming processing is linked to a third-party provider in our network that offers insurance at fair market value to factor in risks associated with insurance claims. When a claim is filed, it is submitted to claim adjusters for a decision.

## Checkpoint

To contact us, you must have a pivot account, to initiate a VMAT session. However, during peak seasons, we offer a chat service that that also requires a pivot account to receive a one-time passcode to activate the chat session. All chat transcripts are in stored in our HARP database.

### Communication Policy

The daily run does not use traditional phone lines due to port out scams and heavy security breaches. . We also have communication bans at all establishment where all communication devices must be stored in an enclosure and not utilized at our establishments due to heavy breaches into the Earth atmosphere resulting in heavy hacks in communication databases and port out scams. Therefore, VMAT serves as a security infrastructure for communications to provide real-time viewing on video to detect fraudulent activity. Additionally, all VMAT sessions are stored in our HARP database and available to employees and government investigators.

### Content Management

The daily run also has a proprietary content management system that covers a broad scope of information and features that is managed by our MIS division that require security access keys to service accounts The daily run also houses over 150 web servers at our MIS headquarters. We also have a customer service division that operates 24 hours on VMAT along with a field team of up to 120 news runners.

It is also important to note that all personnel are background screened and must not have any public record of criminal activity in the last 18 months and no excessive history of criminal conduct that will questions one's character and sense of reality that makes rehabilitation more challenging and sometimes non-recoverable..

Under excise law, a criminal is defined as a someone who commits an unlawful act except when there are extenuating circumstances that leads to forgiveness of a crime such as crimes of moral consciousness that are often linked to crippling dynamics (..such as abuse of institution and role) and unionization processes that disables human life and forces the victim into a more controlled state to seek relief. This act of moral indemnity is a valid profile of a moral entity.

# NEMA

## National Empirical Managerial Assessment Guide

### Annex

### Excise

The daily run is a behavioral health segment with a profound element of community and service that serves as a vehicle to a more progressive historical track that eliminates past historical patterns to ensure there is a more progressive path to human service.

#### General Ordinance

Therefore, a mental health spectrum division was established to serve as a evaluative tool and measuring scale for integration models that develops the human mental apparatus outside of racial induction and psychiatric unification that tampers with the ethical foundation built in human nature and ethical process

#### Selective Ordinance

We reserve the right to summon critical assessments into mental health to include but are not limited to language proficiency assessments, mental health spectrum evaluations, diversity segmentation, and behavioral disposition screening fostering a light conservative element to growth and unionization so that the developmental processes built into our institution is more progressive and not lingering in a false sense of idealism and culturing that continue to derail progress in the nations cultures with a false sense of unionization growth .that tampers with human process..

Thereby, we reserved the right to impose sanctions under excise law to serve as a governed structure and discretionary review process.. In order, to achieve such an optimal task, the communication channel shall remain parallel and conditioned for universal use with American English serving as a major communication style and language structure that enables effective communication.. Additionally, the daily run does not provide any translation services in a foreign language, and all patrons must speak read, and write in American English and general concepts on a proficient level to lift communication barriers that often lead to the breakdown in communication and intent.

The excise serves as a separate rule of law that promotes better system structure and consists of preamp policies that set standards on policy development, resource distribution, and judicial processes to ensure there are grounds for equitable protection.

#### General Ordinance

Excise law also imposes special entry requirements on white historical nations to erase vast error from the historical track and integration segments due to a lack of community building efforts that continues to derail historical progress in nations with a phantom state of growth and unionization that continue to recycle.

#### Selective Ordinance

In this ordinance, we reference historical eras, and the psychological elements built into slavery generations and their unions that warrants greater oversight of the human race. Additionally, historical eras are periods of increased political tensions that stem from fear of changes to its political structure and unions that have kept the nations intact but yet dehumanized shifting the political arena into a more dire state on isolated security and criminal segregation where crime by association remained in an honorable state and protective blanket even when there was no valid entry that overrode false processing and unethical practice that shift ed society into a psychiatric hold on identity and union that captured a more realistic view of culture and mental health .

These cultural segments were identified as herd-like cultures that bear an intense element of belonging to their own race, language, and institution because of how its bonding elements built into race and institution that develop the mind psychiatrically on identity and union which serves as the main source to intense emotional segregation that requires more advanced computing of race and culture to identify integration challenges especially when there is a disruptive element that dehumanize the societal structure to a state of impaired growth and psychiatric unification.
