

Winter Has Clocked In, and It's Working Overtime

This winter has made its presence known in a big way. New York just experienced one of the coldest stretches in more than 65 years. That's not just a headline—it's a reality we're all feeling on the job. Extreme cold affects focus, reaction time, equipment, and overall safety. February is the time to slow things down, be intentional, and look out for one another. No job is worth rushing when conditions aren't on your side.

Cold weather success comes down to awareness, preparation, and teamwork

WINTER SAFETY FOCUS

Slips, trips, and falls are one of the most common winter-related injuries—and one of the easiest to prevent when we stay alert.

Here are a few reminders to keep everyone safe:

- Take smaller steps on icy or uneven surfaces
- Wear proper winter footwear with good traction
- Use handrails when entering or exiting vehicles
- Clear snow and ice when possible
- Keep walkways and work areas organized
- Don't rush—ice doesn't care about schedules

Remember: slow is smooth, smooth is safe.

BIG ANNOUNCEMENT: WE'VE MOVED

We're excited to share some big news with the team.

Advanced Utility Solutions has officially moved into our new office.

New Home Base:

125 Wilbur Place, Suite 200
Bohemia, NY

This move is an exciting milestone for the company. The new space gives us room to grow, improve operations, and better support our crews and clients as we continue to expand.

While Smithtown will always be part of our story, it is no longer our home base.

Bohemia marks the next chapter—one focused on growth, efficiency, and long-term success.

We're incredibly excited about what's ahead.

SOCIAL SOLUTIONS

The office staff has been busy at work expanding our social media presence. Like, Share, and Follow our pages for updates, anecdotes, and maybe even a meme or two! Our socials are linked here.

TAKE CARE OF YOUR BODY

Cold weather puts extra strain on the body. Staying warm isn't just about comfort—it's about safety and performance.

Quick cold-weather reminders:

- Take warm-up breaks when needed
- Layer clothing appropriately
- Stay hydrated, even if you don't feel thirsty
- Stretch before and during your shift
- Speak up if you're feeling fatigued or uncomfortable

If you need help, ask. If you see someone struggling, step in.

Watching out for each other is what makes a strong crew.

LOOKING AHEAD

As we move through the rest of winter and into the year ahead, our focus remains the same:

- Safety first
- Clear communication
- Strong teamwork
- Continuous improvement

Thank you for the professionalism, resilience, and commitment you bring every day—especially during challenging conditions like these.

Stay warm.

Stay safe.

And keep looking out for each other.

JANUARY MVPS:

We are pleased to recognize the following employees for their outstanding performance and dedication:

- **Ken Burr (1049)**
- **Mykqwan Cason Logan (1249)**

This month's MVPs were selected for their strong, consistent communication with the crew and dispatch, helping keep everyone aligned and operations running smoothly.
