

# RM Products Ltd

## Guard Houses, Kiosks & Portable Offices

- RM Products Ltd. Guardhouse design is strong and rugged to meet the needs of our clients.
- RM Products Guard Shack uses our modular design, which maximizes strength and minimizes building components to make the enclosure light weight and portable.
- The durable guardhouse structure is made entirely of fiberglass (insulated panels are available as an option).
- RM's Guard booth comes in a variety of designs and sizes.
- All Guardhouse / Portable office designs can be customized to suit your exact need and location.
- RM Products portable office building / work station has been used by many different types of companies as security kiosks, entry personnel offices and Guardhouses.
- Our buildings can be relocated or enlarged as your needs change.
