RM Products Ltd.

Why are RM Products fiberglass buildings so easy to assemble?

Minimal Parts - Lightweight - Predrilled Parts

All of these reduce construction time and can save you thousands of dollars.

Some other construction time savings that RM provides are:

- RM's clever design allows you to work in tight congested areas,
- RM not only supplies an assembly manual but provides a pre -assembly conference call to review the assembly,
- A contact number to answer any questions when assembling is supplied and you are encouraged to call,
- RM also can provide a site supervisor or assembly crew if required.
