

# RM Products Ltd.

## How Can RM Reduce Your Construction Costs?

RM Products Modular Fiberglass Buildings are not only virtually maintenance free, non-corrosive, and chemical resistant but are the perfect solution for reducing construction costs. The average saving is 80% on time compared to conventional construction.

### Why?

- Our buildings consist of large insulated molded parts that are light weight but high strength.
- Our parts are predrilled, so can be assembled quickly.
- A detailed assembly manual is provided as well as a pre-assembly conference call, a contact number to answer any questions when assembling and you are encouraged to call.
- RM also can provide a site supervisor or assembly crew if required.
- RM Products has been manufacturing fiberglass buildings for over 25 years for industry and governments worldwide.

### Features & Benefits:

Modular Design - Portable - Quick Assembly Time - Easy Shipping and Off Loading  
Minimal Site Preparation Mold & Mildew Resistant - Long Term Durability  
Insulated Buildings - Virtually Maintenance Free - Light Weight - High Strength to  
Weight Ratio - Easy to Repair - Spray Washable Inside & Out - Ability to Assemble  
in Difficult Locations Where Construction is Constrained  
Electrics, Lighting and HVAC Options Are Available
