

# RM Products Ltd.

## Guard Houses, Kiosks & Portable Offices

RM Products Ltd.'s guardhouse design is strong and rugged to meet the needs of our clients.

- Our guardhouse uses our modular design, which maximizes strength and minimizes building components to make the enclosure light weight and portable.
- The durable guardhouse structure is made entirely of fiberglass (insulated panels are available as an option).
- RM's guardhouse comes in a variety of designs and sizes.
- All guardhouse, kiosks and portable office designs can be customized to suit your exact need and location.
- RM's portable office building/work stations have been used by many different types of companies as security kiosks, entry personnel offices and guardhouses.
- Our buildings can be relocated or enlarged as your needs change.
