

# RM Products Ltd.

## Pump House Enclosure

RM Products Ltd is the leading manufacturer of modular fiberglass enclosures used in the pump industry. Our modular design is lightweight, high strength and allows for flexibility in providing the perfect enclosures customized to your specific needs. RM's CAD drawings can be engineered stamped for all states and provinces in North America.

Our buildings come pre-assembled or in modular components ready for easy assembly on to steel skids or concrete pads. We provide a one stop solution including electrical, doors and hatch options.

From concept to final product RM's design and support team provide a total solution to your equipment enclosure needs.

Let RM Products be part of your team to help you on a project and design the enclosure or cover needed for your equipment!

### Features & Benefits:

Modular Design - Portable - Quick Assembly Time - Easy Shipping and Off Loading - Minimal Site Preparation - Mold & Mildew Resistant - Long Term Durability - Insulated Buildings - Virtually Maintenance Free - Light Weight - High Strength to Weight Ratio - Easy to Repair - Spray Washable Inside & Out - Ability to Assemble in Difficult Locations Where Construction is Constrained - Electrics, Lighting and HVAC Options Are Available - Meets Building Codes Throughout North America
