WHY JUST CLEAN WHEN YOU CAN PROTECT?

AGent+® Cleaner & Protectant is a patented, naturally derived commercial, industrial and household cleaning and protectant product, which encapsulates nanoscale silver and copper particles. In addition to a powerful cleaner, is our **PROTECTANT** formula, which provides industry leading protectant abilities that **continue to clean long after the initial cleaning.**

AGent+® Cleaner & Protectant accomplishes this by creating a nanolayer of copper and silver, which provides a degree of **“residual self-sanitation”** (the promotion of hygiene and prevention of disease by maintenance of sanitary conditions) for up to 3 days after applying.

We are a naturally derived, formulation of water, citrus terpene (orange oils), isopropyl alcohol, nanoscale silver and copper, and a polymer that creates a unique “protective net.”. When AGent+® is applied, a protective net sets up on any porous or non-porous surface and then “self-levels,” thereby creating a protective growth inhibiting barrier, which works in reducing the presence of bacteria, mold, mildew, and odor.

AGENT+® CLEANER & PROTECTANT NOTES:

AGent+® Cleaner & Protectants is a patented, naturally derived line of advanced household/commercial cleaning products

- Patented Formula (USPTO #10,271,545)
- Powered by Nanotechnology
- Cleans and Sanitizes
- Removes & Inhibits Mildew
- Forms Long Lasting Protective Barrier
- EPA Registered Active Ingredient
- Eliminates Odors
- Cuts Grease

WHAT SETS US APART:

- Our water-based formulations utilize natural Citrus Oils and Isopropyl Alcohol to clean like traditional products.
- Unlike the others, **we use nano-scale Copper and Silver** to protect the cleaned surface from the growth and cross-contamination of harmful odor causing bacteria and fungus for up to three days after cleaning.
- All with less negative impact to you, your family, and the environment.

AGENT+® HARD SURFACE CLEANER & PROTECTANT

- Designed to clean and protect hard surfaces including Kitchens and Bathrooms, Countertops, Ceramic Fixtures, Glazed Tiles, Plastics, and many more household surfaces.
- 97% Water—Up to 24 Hour* Protection

AGENT+® MULTI-PURPOSE CLEANER & PROTECTANT

- Designed to clean and protect surfaces including Kitchens and Bathrooms, Upholstery, Sports & Outdoor Equipment, Pet Bedding, Shoes/Leathers, and many other household items.
- 93% Water—Up to 3 Days* Protection
