BIOGRAPHY

I oscillate between the worlds of artist and educator, and these worlds billow through the others atmospheres. My curiosity and sense of adventure are to blame and thank for it. Inspired by transformation, function, and innovation, I create art to encourage curiosity in the viewers and students, and to flourish the inquisitive spark within me. Throughout my adventures in making art, I'm drawn to humanizing innovative concepts, and investigate the relationship of people to systems and objects.

EXPERIENCE

ARTIST 2000 - Current

I create art to honor the process of problem solving. The grind, the process, is as important as the product, the art. My preferred media are Ceramics and Sculpture. I also Paint and Draw. Many of my works are mixed media, and mixed methods. In most areas of my life I embrace a duality of worlds. The products I create in 2-D and 3-D works are a natural result of this duality.

- Owner of Six Toes Studio
- Founder of Atelier Café non-profit arts atelier in Santa Ana, CA

ART EDUCATOR 2007 - Current

I teach to empower students by employing traditional and contemporary methods, and investigating STEAM applications. My pedagogy fosters creativity, divergent thinking, risk-taking, resilience, and decision-making skills in my students. In teaching Art, Ceramics, Technology, Digital Media, Photography, Yearbook, and College Preparation I've encouraged young people to connect, research, and express their ideas through Art.
