ATTACHMENTS EZ-0016 RAIL TOOL

KEY FEATURES

Attaches to skid steers or any other machine equipped with the Universal Quick Tach' mounting system.

Rotates 127 degrees to the operators left when attached to an EZ Spot UR Double Rotating Base.

Can also be attached to an EZ Spot UR Non-Rotating Base.

The jaws open to 12 inches close down to 0.

Composed of Grade 80 material and core welded to withstand years of wear and tear.

EQUIPMENT SPECIFICATION

One 3"X6" hydraulic clamp cylinder confidently opens and closes the jaws of the attachment while ensuring a solid grip throughout.

When closed, the jaws create a flat front that allows the operator to quickly and easily place a railroad tie.

Comes complete with flush faced couplers, spring hose mount and wiring harness.

Can be adapted to fit mini-excavators, wheel loaders, telehandlers, and backhoes.

PRODUCT DESCRIPTION AND APPLICATIONS

The EZ Spot UR Rail Tool is revolutionizing the railroad industry by allowing repair and construction crews to streamline the process of track building. The Rail Tool allows the operator to quickly and easily pick up railroad ties from a pile and place them with superb accuracy. The one-man operation allows you to drastically reduce the amount of men on your crew which will save you time and money. The EZ Spot UR Rail Tool is much safer than conventional means and will allow your crew to be much more productive.

The EZ Spot UR Rail Tool is powerful enough to handle the heaviest railroad ties as well as pull out existing track. Because it attaches to any machine it allows you to move from site to site quickly and get a job done much faster. Save time, money and labor with the EZ Spot UR Rail Tool!
