Safe, One Man Operation

"These machines allow co-op line workers to set new poles or replace downed poles in areas of limited access. They are well-suited for storm restoration be it blizzard, tornado or hurricane, to help line crews work safer and more efficiently."

"Our workforce really picked up handling the equipment quickly and they were setting 45 foot poles with ease at the end of the day."

-Tom Aydelotte
Choptank Electric Cooperative

Make it EZ!

"We are very impressed with the efficiency of this equipment."

"We could have spent hours trying to reach one pole in a marshy area, but we pulled six poles in about 30 minutes with the track loader and EZ SPOT UR. This is not just storm conditions; we are finding lots of uses for it, especially in low-lying areas."

-Francis Kinoman
Choptank Electric Cooperative
