

## UTILITY WORK

### A Stand Alone Unit

Attaches to a wide variety of machines which are equipped with the Universal Quick Tach mounting system.

Rotates 120 degrees.

Two jaws operate independently and in close sequence for safety and security.

Clamping activated by two 3"x 6" clamp cylinders.

Comes standard with rubber lining on the jaws to protect poles and allows for use on any type of pole.

Composed of Grade 80 material or higher.

Can be adapted to fit mini-excavators, telehandlers, wheel loaders, and backhoes.
