# ATTACHMENTS EZ-0020 POT MOVER

## KEY FEATURES

Attaches to skid steers or any other machine equipped with the Universal Quick Tach' mounting system.

Rotates 127 degrees to the operators left when attached to an EZ Spot UR Double Rotating Base.

Can also be attached to an EZ Spot UR Non-Rotating Base.

The jaws will open wide to 72 inches and close down to 14.87 inches.

Equipped with release valve to adjust pressure down to 250 psi to ensure no crushing occurs.

Composed of Grade 80 material and core welded to withstand years of wear and tear.

## EQUIPMENT SPECIFICATION

Asymmetric arm allows the operator to load and unload nursery pots easily.

The inside of the jaws come standard with metal spikes to ensure grip but can be lined with rubber instead to prevent damage.

Two 3x6 hydraulic cylinders open and close the jaws.

Handles pots ranging from 45-200 gallons and inserts can be purchased to allow the attachment to handle 15 gallon pots.

## PRODUCT DESCRIPTION AND APPLICATIONS

The EZ Spot UR Pot Mover makes it quick and easy to move potted plants, trees and shrubs. When a nursery needs to prepare for hurricanes or other storms it is imperative that the pots be turned on their side and the Pot Mover makes this quick and easy. The EZ Spot UR Pot Mover is also ideal for everyday use in a nursery as it makes it simple for one person to load and unload pots on to a trailer.

The EZ Spot UR Pot Mover is designed to handle pots of all sizes and opens wide to 72 inches and closes down to 14.87 inches to handle virtually any size pot. The spikes that line the jaws will confidently hold the pot while the hydraulic cylinders ensure a secure clamp throughout. If you own a nursery and need to move nursery pots, look no further than the EZ Spot UR Pot Mover to make your job quicker and easier.
