

**WE WILL HOUSE YOU, INDEFINITELY, in your very own, modern, air-conditioned Smart House (aka your "Digital Nomads Launching Pad"), and provide you with your very own E-bike (the NWOW ERVS3 model we call "Dorothy")...**

Technically, you will hold a Life-Long Lease for your individualized Digital Nomads Launching Pad & Community Living Space Package, because as a non-Filipino, SRRV-holding retired person, you cannot own property... but you can hold, defend & use what you receive from us for your own fun & profit as if it were yours... for the rest of your life...

**WE WILL FEED YOU THREE HEARTY MEALS EACH & EVERY DAY...**

Meldy & her staff will not only serve you traditionally tasty Filipino dishes made with fresh ingredients & culinary care, but we will also source a variety of US favorites for you to eat when you are feeling like you need that little special something to remind you of your days gone by in the USA.

WE WILL MAKE SURE YOU HAVE ENOUGH WATER to drink, shower, wash your clothes, find comfort in your comfort room & make snacks (that you purchase for yourself) regularly...

## Rainwater Capture

250 gallons each x 4

Reverse  
Osmosis

Bottled  
Water

20 liters  
each as  
needed
