

S7-Sports™

A Community Development Service Fueled by The SCRAMBLE-4-PEACE.COM Platform

Where competition becomes community, community becomes compassion, and both become a movement that will change us all for good... 4EVER!

S7-Sports™ is an innovative multi-sport framework designed to transform local recreation into a force for community leadership, shared service, and peace-making through community development. Join us to help us **HELP MERCY ABOUND**—right in your own backyard.

S7-Sports™ is built on the simple idea that play builds positive leadership into people that care and these T-shaped people build our world into a better, brighter place for us all. This is the community development platform you have been hoping for, because this one brings Meaning, Mercy, and Mirth onto the fields, greens, lanes, and courses right on the streets where you live.

At the heart of every S7-Sport™ is the same simple pattern:

- Players are determined by some factor of seven
- Every player is required to eat a community meal
- Every player is required to dialog after every match
- Everyone is ultimately focused on how to best next HELP MERCY ABOUND
- Service commitments and awards are woven into the season
- Everything players do pays a peace dividend that sparks local change for good

This is recreation reinvented: fun, strategic, arced toward justice, and positively purposeful.

Our First Three Sports

S7-Bowling™ — Our original S7-Sports™ innovation and the foundation of the system.

A weekly league built around:

- 7 bowlers in the rotation for a 10-bowler team
- 3 pinch-bowlers who may also be shared with other teams for a series
- Awards for winning teams, generous teams, and impactful change agents
- Mercy-driven servant-leadership development
- A sponsorship base that fuels and staffs local compassion campaigns

S7-Bowling™ is more than strikes and spares—it's a structured pathway that starts to rebuild belonging on the lanes and takes it **all the way to the house.**

S7-Golf™ — Just a slight tweak to the classic

This is the scramble format reinvented with:

- 4 starters per nine holes, with 3 pinch-hitters in reserve
- Every hitter contributes at least one tee shot, approach, and putt every nine
- Hitter-loaning and change-maker training just like bowling

S7-Golf™ turns the classic scramble into a system of skill-sharing, intentional teamwork, and relationship renewal both on and off the course.

S7-DiscGolf™ — A natural companion to its royal and ancient cousin

Same innovative leadership benefits and rules as S7-Golf™, only this time we play with discs on courses designed specifically for disc play.

S7-Sports™ Sponsors Help Fill in the Gap

The compulsory meal and community development training increase the weekly cost of participation to about 10× the price of a typical recreational league.

To bring the cost back down to normal for players, each leader-athlete recruits 52 supporters who join them as full members of Scramble-4-Peace.com.

This community give-back system not only keeps leader-athletes fully engaged without undue financial burden — it also creates up to 530 already-inspired change agents out in the world, multiplying positive impact where it counts most.

More S7-Sports™ on the Horizon

We're curating the sports we add carefully and in sequence—**no getting out over our skis**. Nevertheless, the core S7-Sports™ pattern adapts quite easily when AI helps you do the thinking, so we plan to as many teams, facilities, and partner communities as we can.

Why S7-Sports™ Works

Because when people **play together, talk together, eat together, serve together and retrospect together** *something always changes for the better*:

- Mercy becomes strategy.
- Community becomes normal.
- Peace becomes just that much more possible each & every week.

S7-Sports™ is not just another sports league system.

S7-Sports™ is a movement that's growing stronger each & every day.
