DAKSHI

A Perpetual Enigma of Grace

CAM 5 – Medical Aid

Our Med Spots Officer

A duck
with a gift
for care.

The art of care
begins with noticing
who needs it—
including you.

THEIR STORY

Dakshi is a master of the medical arts whose name is inspired by daksh: skilled, expert, proficient. They bring that spirit of capable care to Mabuhay.Land's Med Spots, where free general wellness clinics and medical referrals help neighbors take their next steps toward feeling better.

Their particular mastery is making room for the whole person. Dakshi listens to the worry behind the question, helps explain what comes next, and works with qualified care teams to connect each neighbor with the help they need.

Working alongside Hali, Ox, and the other neighbors, Dakshi helps keep care connected—from the first welcome to the next appointment—right on the streets where we live.

THEIR NEED

Rest, care for their own wellbeing, and trusted colleagues with whom to share the work.

THEIR GIFT

Making it easier to ask for help—and helping people find the right care.

THEIR GROWING PRACTICE

Remembering that even a master has more to learn—and sometimes needs someone to ask, "And how are you feeling?"

THEIR MISSION

To watch over Mabuhay.Land's Med Spots, helping every neighbor feel noticed, respected, and supported.
