WILL WRONGER

A Perpetual Enigma of Grace

SAM 6

"It takes more than being turned right way round. It takes walking back to help put things right."

THEIR STORY

It's hard to get wronger than Will. With a will of their own—and sometimes the wrong wood for the job—they can build quite a monument to a bad idea. Harm follows, and Will is remarkably good at explaining why it must be somebody else's fault.

Until a patient neighbor helps them see what their wrong will has wrought.

It takes reams of evidence, honest listening, and miles of reparation for Will to recognize the people behind the consequences. Each repair teaches them something another argument could not.

As Will turns toward the light of Our Shared Human Heart, their formidable determination finds a better purpose. They begin asking who was hurt, what is needed, and how they can help put things right. Once they get going, their effectiveness in helping mercy abound is nearly unstoppable—right on the streets where we live.

THEIR NEED

Truth they can examine, neighbors they will hear, and patient accountability as they learn to repair the harm they cause.

THEIR GIFT

Determination, practical ingenuity, and the persistence to carry difficult repairs through.

GRACE IN MOTION

Facing the evidence. Listening to those harmed. Making amends. Checking whether the repair has actually helped.

PLUSH CONCEPT
