

WHY PAY FOR A LICENSED ADVISER

- The upfront cost for a Licensed Adviser is an investment in you and your family's future.
- Initially, it will cost to pay for your Work visa or Residence Visa, however, **this money can easily be recouped within one year once you have the proper visas and can bring your family over.**
- It's cheaper to do things properly the first time. Our Immigration Adviser will provide transparent advice and will not advise you to lodge unnecessary applications if they will not be successful.
