As a congregation, we give thanks to God for all that He has done in the past 13 years !!!

## **SRMC - It's Initiation**

About 13 years ago, Koramangala Methodist Church obeyed the God's call to plant a Church in the growing suburbs of the East Bengaluru on Sarjapura Road. It all began by starting a worship centre at a home-based montessori school. Right from the very beginning, God has been faithful in blessing our efforts and adding to the congregation.

## **Current Status**

Today we are a growing congregation of 200 people and we are running short of room for various church activities in the present place of worship which is on rent. Therefore, the leadership has decided to invest on buying a suitable piece of land and have a church built in and around Sarjapur Road area. This will not only enable to accommodate the growing congregation but will also help in developing the community around as the Lord enables.

## **Future Vision**

The Neighborhood of Sarjapur Road is a very strategic location for an English Church like ours because of the presence of various MNCs, International Schools and residential complexes. Planting a church with a reach of about 15 kms from where we are now, has a potential to contribute to the existing large Christian population of this neighborhood in a big way. And with God's will, in the years to come, SRMC can no doubt be the one of the fastest growing churches in the city of Bengaluru.

We relentlessly hold on to the vision of catering to the spiritual needs of the people across this faith community and the society at large. Therefore, the presence of a church building in the locality will make a big difference and is the need of the hour.

## Your active involvement

Without your wholehearted involvement this will remain a distant dream.

You can...

- Pray regularly for this proposed project (buying land and construction work)
- Contribute/pledge fixed amount payable one time or monthly, quarterly or half yearly or yearly
- Pledge to donate equivalent of one month's salary
- Take time to introduce to your acquaintances like friends and well-wishers and relatives who would like to partner in this project by cash or kind

## Ways and means you can give

- You may write a cheque in the name of the church
- You may transfer funds directly through NEFT/IMPS
- You may use our QR code to make payment via UPI

Details of the Account is as follows:

# Arise, let us Build

(Nehemiah 2:17)

Since early 2018, we have been involved in Arise, let us BUILD project, helping the church grow and increase capital funds to purchase land for a new Church facility in Sarjapur area. As we go through the processes involved, it is great to see God at work in different ways; at times opening doors for better opportunities and closing doors at other times to point us in a different direction.

We believe this vision is from the Lord. Just as Nehemiah answered the call to build the city walls, we are called to build His church in this part of the City (East Bengaluru).

We are almost close to fixing 100x140 ft of land near Kodathi village, costing around INR 5.5 Crores, complete the legal procedures and draw plans for payment schedule. The next 4-6 months will be both exciting and challenging. Many of us have seen our Lord do the impossible through the little resources we have. After all, He is the one who multiplied the 5 loaves and 2 fish.

We reach out to you, knowing that our Lord has a plan to build this church through you. We invite you to pray and partner in this investment, believing that SRMC will soon stand as a testimony to the faithfulness of God and His people.

**Let us pray in faith, let us give in faith  
and He will build His church.**
