

Tired of Union Politics Running Our Schools?

Reject the Apple Ballot and choose the Orange Ballot, where parents lead!

Orange Ballot PAC is a grassroots, conservative movement that puts students first and parents in charge. Across Frederick County, we mobilize voters, support school board candidates who stand with families, and provide a clear voter guide so you know exactly who supports students—and who doesn't.

Flip the Apple Ballot to the Orange Ballot!	 Orange Ballot Candidates who Prioritize Students, Responsible Spending & the Voices of Parents	 Apple Ballot Teacher Union-Backed Candidates with Special Interests & Political Agendas
ACADEMICS	Implement proven, well-researched curriculum that increases knowledge, critical thinking, and academic success.	Deny FCPS's 68% failure rate while prioritizing diversity, equity, and inclusion (DEI), Social and Emotional Learning (SEL), and other political initiatives that do not raise academic achievement.
BUDGET	Ensure taxpayer dollars fund classrooms and students, not bureaucracy. Demand fiscal responsibility and transparency.	Blamed poor performance on a lack of funding even though FCPS spent over \$18,000 per student, has seen decades of budget increases, caused our property taxes to rise, and spent nearly \$1 billion on schools last year.
SCHOOL CHOICE	Support school choice, including charter schools, educational savings accounts, career and technology programs, and other educational paths that put students first.	Oppose school choice. Prioritize union goals. Support statewide control through the Blueprint for Maryland's Future, which removes local control and parental rights.
PARENTAL RIGHTS	Protect girls' and boys' private spaces and sports, and uphold parents' fundamental right to direct the upbringing and education of their children.	Do not protect private spaces or sports. Support secret gender transitions and withholding critical information from parents. Promote sexually explicit books in school libraries.
TEACHER REPRESENTATION	Support teachers with competitive pay and professional growth. Recognize their achievements and provide the resources they need to thrive.	Loyal to the school system, not the classroom. Prioritize unions and influential groups, not teachers and students, they're meant to protect.
CAMPAIGN FUNDS	Backed by grassroots donors and Maryland parents who want student success, local control, and fiscal responsibility. JOIN US!	It is backed by the Maryland State Education Association (MSEA), a teachers' union pushing social and political agendas.
