# Asimov's 3 Laws

# Asimov's Three Laws

1. A robot **may not injure a human being**, or through inaction, allow a human being to come to harm. [HUMAN FIRST]
2. A robot must **obey the orders given it by human beings**, except where such orders would conflict with the First Law. [ETHICAL]
3. A robot must **protect its own existence** as long as such protection does not conflict with the First or Second Laws. [NON-BIASED, SUSTAINABLE]
