

ARB APPROVED EXTERIOR "REPAINT" COLOR PALETTE

APPROVAL CRITERIA:

1. Repainting the original Ryland Home Sherwin William exterior paint and trim colors are preferable and will be automatically approved.
2. Garage door MUST be painted the same as the house exterior. No exceptions.
3. Any color change from the original Ryland home Sherwin William paint colors, must be chosen from the ARB colors pallet.
4. The only approved colors for walls and trim are to be neutral and/or pastel (muted) colors with varying saturations light to medium.
5. Trim colors must be chosen from the same color chip tone, 1 or two shades deeper so the colors will complement each other. You may not choose trim colors which are are bright or dark.
6. The original Builder, Ryland Homes, had 3 colors per home, believed to be the shades shown below. Trim colors could not be obtained. You may pick a trim color a shade or two darker;
 - (a) Exterior walls and garage door the same color.
 - (b) Trim around facie, trim around garage, and trim around windows, a tone shade darker
 - (c) Front door and/or shutters if applicable - An accent color

The front door can be an "accent color" so long as it complements the other colors on the home and fits the neighborhood colors.

7. Colors may not be chosen which are the same as a home on either side or across the street of the residence.

8. YOU MAY BUY ANY BRAND OF PAINT, SO LONG AS THEY CAN MATCH THE APPROVED COLOR. ALL CHIP CARDS WITH NAMES MUST BE SUBMITTED TO THE ARB FOR APPROVAL PRIOR TO PAINTING.

Bear in mind that the chips, although looking very pale on a small chip, will be much darker on a large scale. You are encouraged to purchase a small sample bottle and paint on the side of the home to get a feel of the color. NOTE: Those homes that were painted without ARB approval and later obtained "conditional approval" from the previous Board, will not be allowed to be repaint the same unapproved color, and must choose from the ARB approved palette when repainting.
