

WELCOME

TO THE TEAM

**JEFF
SHAW**

SENIOR
PROJECT
MANAGER

SPMT GROUP WELCOMES JEFF SHAW AS SENIOR PROJECT MANAGER

SPMT Group is pleased to welcome **Jeff Shaw** to the team as a **Senior Project Manager**. Jeff brings more than 15 years of experience spanning project management, operations, logistics, client service, facility activation, asset management, and construction delivery across healthcare, industrial, manufacturing, higher education, municipal, and commercial environments. His background is particularly strong in complex, operationally sensitive facilities where planning, coordination, and communication are critical to successful project delivery.

Prior to joining SPMT Group, Jeff served as a Senior Project Manager with McGough Construction, where he managed projects across a range of market sectors. His experience includes healthcare work for Texas Health and Human Services, Parkland Hospital, UT Southwestern, Los Barrios Unidos Community Clinic, Baylor Scott & White, Children's Medical Center Dallas, and ProMedica Labs, along with industrial and manufacturing projects including Entegris and the MEMC 300mm SOI Facility.

Jeff's healthcare background extends beyond traditional construction management and includes facility activation, FF&E coordination, medical equipment logistics, clinical lab moves, healthcare renovations, infrastructure projects, and phased work in active healthcare environments. His project experience includes NICU, Med Surg, hybrid OR, pharmacy, research laboratory, medical office, warehouse, and clinical support spaces, as well as major facility activation and relocation efforts.

Earlier in his career, Jeff spent several years with Parkland Health, where his responsibilities included medical equipment logistics, warehouse operations, asset management, vendor coordination, regulatory readiness, and support of new hospital construction. He also helped develop asset management processes and supported teams through Joint Commission survey readiness.

In addition to his construction and project management background, Jeff served **11 years in the United States Army**. That experience helped shape a leadership style grounded in discipline, accountability, adaptability, and a strong commitment to team performance. He is known for steady leadership, clear communication, attention to detail, and his ability to coordinate closely with owners, design teams, contractors, vendors, inspectors, and end users while keeping the client's goals at the forefront.

Jeff holds a **Bachelor of Science in Criminal Justice from Tarleton State University** and brings to SPMT a well-rounded combination of leadership, operational knowledge, field experience, and client-focused project management.

Please join us in welcoming Jeff to the SPMT Group team.
