

WELCOME

TO THE TEAM

**Albert
Tran**

SENIOR
PROJECT
MANAGER

SPMT GROUP WELCOMES ALBERT TRAN AS SENIOR PROJECT MANAGER

SPMT Group is excited to welcome Albert Tran as a Senior Project Manager.

Albert brings nearly \$400 million in construction and project management experience across healthcare, multifamily, senior living, and mixed-use developments. His experience spans all phases of project delivery, including design coordination, preconstruction, procurement, contract management, budgeting, scheduling, construction, and project closeout.

Throughout his career, Albert has contributed to a diverse portfolio of complex projects across healthcare, multifamily, senior living, and mixed-use development. His experience includes large-scale residential and mixed-use projects as well as technically complex healthcare environments. Most recently, Albert has been managing the construction of a new ground-up VA Facility in Rosenberg, Texas, overseeing a broad range of clinical spaces including radiology, MRI, mental health, and physical therapy.

This diverse project background has given Albert a strong understanding of the coordination, communication, and financial management required to successfully deliver complex projects from preconstruction through closeout.

Albert holds a Bachelor of Science in Construction Science from Texas A&M University. He and his wife reside in Plano with their two dogs and two cats and enjoy spending time outdoors.

Please join us in welcoming Albert to SPMT Group!
