What is included?

We condition the gas, grease the engine, run fogging oil through the engine and change your lower unit lube.

Are the estimates exact totals?

NO. An estimate is just that, an estimate. We do our best to keep winterizing within those ranges, however, circumstances may arise that add additional labor or parts charges.

What if I need a repair as well? Can you do that while you are winterizing?

Most likely NO. Winterizing is key to the safety of your engine, and that is our number one priority at this time. If you know you have an issue, PLEASE report it at the time of drop off for winterizing. HOWEVER, it is very likely we will winterize your engine and request that you plan to come back in early Spring (when the weather is no longer freezing) and we will complete the repair at that time. In some instances, minor repairs CAN be completed at the time of winterization. This is at the discretion of our technicians.

Can you winterize my boat water systems? – We can. For **\$50 + tax**, we will drain and blow out your livewell/fishwell lines and add antifreeze. Please note, we do NOT pump holding tanks (i.e. toilets)

WINTERIZE 2 STROKE

- 2 - 15 HP (portables)**
\$100 - 115 +tax
- 18 - 300 HP**
\$150 - 160 +tax
