From Ithaca Yacht Club (IYC). <u>We pick up from slip.</u>	\$150

From any other location, please call for pricing and availability

WINTERIZATION

Are the estimates exact totals?

NO. An estimate is just that, an estimate. We do our best to keep winterizing within these ranges; however, circumstances may arise that add additional labor or parts charges.

What if I need a repair as well? Can you do that while you are winterizing?

Most likely NO. Winterizing is key to the safety of your engine, and that is our number one priority during this season. If you know you have an issue, PLEASE report it at the time of drop off for winterizing. HOWEVER, it is very likely we will winterize your engine and request that you plan to come back in early Spring (when the weather is no longer freezing) and we will complete the repair at that time. In some instances, minor repairs CAN be completed at the time of winterization. This is at the discretion of our technicians.

Due to space limitations, please note that storage fees of \$5 per day will begin to apply 3 days after you are notified that your service is complete, unless prior arrangements have been made.

OUTBOARD WINTERIZATION

What is included?

We condition the gas, grease the engine, run fogging oil through the engine and change your lower unit lube

2 STROKE

2 - 20 HP (portables)	\$140 - 155 +tax
25 - 75 HP	\$190 - 205 +tax
85 - 300 HP	\$235 - 250 +tax

4 STROKE**

3 1/2 - 30 HP	\$180 - 200 +tax
40 - 75 HP	\$265 - 280 +tax
90 - 250 HP	\$290 - 305 +tax

** Includes oil and filter. Please note many 4-stroke engines require removal of parts or lower pan covers for access to oil filters.

I/O STERN DRIVE WINTERIZATION

What is included?

We condition your gas, drain water from the engine and add antifreeze; change water separator/fuel filter (if installed), change the outdrive lube and grease the gimbal bearing.
