

# Medication Reconciliation Post-Discharge (MRP)

HEDIS® Measure

## Measure

The percentage of patients 18 years and older who had their medications reconciled following an inpatient discharge.

## Compliance

Medications reconciled within day of discharge through 30 days after. (31 days total including day of discharge).

## Coding

Report with CPT® II Code

**1111F: Discharge medications reconciled with the current medication list in outpatient medical record**

Best practice: Bill 1111F as soon as medication reconciliation is completed.

Can be billed alone or with an associated visit. Face-to-face visit is not required.

## Helpful

### Information

- Medication reconciliation must be conducted or cosigned by a prescribing practitioner, clinical pharmacist, physician assistant or registered nurse.
- Medication reconciliation may be performed by other medical professionals (e.g., MA, LPN) if signed off by an acceptable practitioner.
- Evidence of medication reconciliation must be in the outpatient medical record, but an outpatient face to face visit is not required.
- Documentation of medication reconciliation should include the date performed, current medication list, and notation that the practitioner reconciled the current and discharge medications, or notation that no medications were prescribed or ordered upon discharge.
- Visit [NCQA.org](https://www.ncqa.org) for more information
