

Aracely Ramirez

Interior Designer

About me:

Outgoing, performance-driven professional with solid academic credentials in Interior Design.

30 years of professional experience have afforded me the opportunity to design for:

- Law firms
- Doctor's waiting rooms
- Corporate Offices
- Residential Projects
- Commercial Projects

Also taught some classes at the University of Ciudad Juarez for Interior Design Students.

Traveling around the world gave me the chance to learn from different cultures, that has a big influence on my projects.

I am able to offer a high level of personal and professional integrity combined with strong work ethic. Also bilingual with the ability to relate with individuals at all levels.

On 2004 a local magazine published an article about my successful career.

My Portfolio
