The purpose of this meeting was for the opportunity to do **a telephone conference call with the Salem Iowa Public Library representatives**. Three community people represented the Salem library. They have recently completed a library building project, using Klingner Architects. Salem has a population of 400, and were on a limited budget.

The Salem participants shared their experiences of building a new library building, providing their building processes, financial aspects, community support, and answering any questions we raised.

This was an informational meeting only; no business was transacted.
