Michelle Denault - Voices Carry

Survivor and Keynote Speaker

I am the owner and founder of "Voices Carry, LLC," a survivor of educator sexual abuse, and the creator of the training programs "Grooming 101 - A Predator's Playbook" and "Grooming and Sexual Violence? It Is Your Business!" In 2015, my perspective shifted when I realized that what I had believed was a "love relationship" with a trusted teacher was instead manipulation and abuse. My presentations have been in over 100 schools and at various institutional conferences to help adults recognize the signs of grooming and empower students to identify if they or their peers are being groomed.

"I should never have to convince anyone why the safety of our children is more important than the comfort of adults"

GROOMING 101

In this powerful presentation, Michelle sheds light on the insidious process of grooming. Michelle shares her personal journey while dissecting each step of grooming. Through her dual lens as both a survivor and an administrator's wife, she reveals how predators exploit a child's natural desire for love, manipulating them into unwittingly consenting to their own violation. Michelle also addresses the tendency to blame victims rather than hold perpetrators accountable.

Her insights highlight the critical need for training and dispelling societal misconceptions so we can better protect our children. These failures have far-reaching consequences, affecting not only individuals but also entire communities and institutions.

"IT IS YOUR BUSINESS"

The "It Is Your Business" program, building on the foundational "Grooming 101 - A Predator's Playbook," offers an in-depth exploration into the complexities of grooming and sexual abuse. This expanded program delves deeper into risk factors, signs to watch for, and the lasting impacts on victims. It aims to educate adults about the nuances of grooming and the critical steps they can take for prevention and intervention. This comprehensive initiative is designed to empower participants with a profound understanding of predatory behaviors and the grooming process, thereby enabling them to safeguard the well-being of children and young adults effectively.
