CREATING A NEW PROJECT

After you run the program, click on "Project" icon on top left corner of the screen.

	Project Wizard	×
Create Create Open Export	Project Name Screen Width + 64 -	
Import	To create a new project Create Cancel	

Before you create the new project, be sure to put proper screen size on width and height (Pixels). You can also put the name of the project, it's optional. When finished click on Create

Creating a Slide

- 1. You will only have 1 slide opened when you create a new project.
- 2. To display all the options Click on the slide on the bottom left corner.

Where's the Save button??? Don't worry XMPlayer Express saves all your hard work automatically.

Adding Text

To input a text message click on the text circle. When the new window open's up it will look like the picture shown below.

Input a Single Text or Multi-Line text (Only for Multi-Line) Push the return/enter key on your keyboard.

	Text Resource Editor	_ □ ×
Font Properties- You can change font type, font size, and font style	TEXT MESSAGE	Import Export Text Text
	p page in the window	₽₽₽✓×
	Change Font Color Change Text Background (Change Background Color	

You can Adjust: The font Size, Type, Style, Color and Background color. Type in your desired message and Proceed.

Description

	Effect	Options	×
Enter Effect	ABC	- Click to change the effect ^{Jom}	
Enter Speed	∢ Fast		> Slow
Delay Time (sec	ond)	+	1 -
Leave Effect	ABC	change	
Leave Speed	≺ Fast		> Slow
	ОК	Cancel	

Preview window for every effect is displayed.

PICTURE

When you click on "Picture" tab, it will lead you to Picture Resource Editor Page.

Original size of the picture

Picture Resource Editor	-		×
Picture is in actual Dimension of the Sign Zoom in Zoom out			
Width + 64 - Height + 64 - IMEGALEDSERVER\Users\++Photo_Images++\Down_images\BACKGROUND_IMGS\windows-background-wallpaper-88		>	3

When you put a picture that is larger than actual pixel size, click "size to fit" button to shrink it to the actual pixel size.

If you want to show partial part of the picture, you can move red box to area of the interested.

When you click on the "Video" tab, it will lead you to Media Resource Editor Page.
