

SAFETY DATA SHEET

Date Prepared: 4/17/2014

Date Printed: 4/13/2015

1. CHEMICAL PRODUCT & COMPANY IDENTIFICATION

MATERIAL IDENTITY: Urethane Foam Resin
RR 401 B

INFORMATION TELEPHONE: 920-645-6205
800-626-2464

COMPANY:
Hydraulic Mudpumps, Inc
1025 East Albert Drive
Manitowoc, WI 54220

EMAIL ADDRESS FOR MSDS: info@hmicompany.com

EMERGENCY TELEPHONE:
CHEMTREC: 800-424-9300

2. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

May be harmful if swallowed. May cause mild irritation to eyes. May cause skin and respiratory tract irritation.

OSHA HAZARDOUS

Target Organ Effect: Irritant, Oral Toxicity

Target Organs: Respiratory, Eyes, Skin, Liver, Bladder

GHS LABEL ELEMENTS, INCLUDING PRECAUTIONARY STATEMENTS

Health		Environmental		Physical
Acute Toxicity Oral	Category 4	Acute Aquatic Toxicity	Category 3	Not Classified
		Chronic Aquatic Toxicity	Category 3	

Pictogram:

Signal Word

Warning

Hazard Statements	Precautionary Statements
H302 Harmful if swallowed H412 Harmful to aquatic life with long lasting effects	P264 Wash hands thoroughly after handling. P270 Do not eat, drink, or smoke when using this product. P273 Avoid release to the environment. P301+P312 IF SWALLOWED: Call a POISON CENTER or doctor or physician if you feel unwell. P330 Rinse mouth P501 Dispose of contents/container to an approved waste disposal plant.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Characterization:

Ingredient(s)	CAS Number	% (by weight)
Polyether Polyol Resin	Mixture	70 – 90 %
Tris (2-chloroisopropyl) phosphate	13674-84-5	5 - 15 %

*** Polyether polyol resins may include; (9051-51-8; 9049-71-3; 52625-13-5; 25791-96-2, 70749-97-2) and other polyol resins

SAFETY DATA SHEET

Date Prepared: 4/17/2014

Date Printed: 4/13/2015

4. FIRST AID MEASURES

Eyes Contact: Check for and remove any contact lenses. Immediately flush eyes gently with large amounts of water for at least 15 minutes. Retract eyelids often. Get prompt medical attention.

Skin Contact: Remove contaminated clothing. Wash the exposed area with mild soap and water. Flush w/lukewarm water for at least 15 minutes. Launder contaminated clothing before re-use. Seek medical attention if ill effect or irritation develops.

Ingestion: Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Keep person warm, quiet and get medical attention.

Inhalation: Wear appropriate respiration protection if vapor or mist is expected. If overcome by exposure, remove victim to fresh air immediately. Give oxygen or artificial respiration as needed. Obtain emergency medical attention immediately.

Advice to physicians: Treat symptomatically and supportively.

5. FIRE FIGHTING MEASURES

Conditions of Flammability

Not flammable or combustible

Suitable extinguishing media

Use extinguishing media appropriate to surrounding fire conditions. Water spray, alcohol resistant foam, dry chemical or carbon dioxide

Hazardous Decomposition Products

When heated to decomposition, may release poisonous and corrosive fumes of carbon dioxide, carbon monoxide, hydrogen chloride and phosphorus oxides.

Fire Fighting Instructions

Wear self contained breathing apparatus (pressure-demand MSHA/NIOSH) approved or equivalent and protective clothing. See Section 10 – decomposition products possible. Do not use water jet. Contain runoff to prevent entry to water or drainage systems.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).

Environmental Precautions

Prevent runoff from entering drains, sewers, or streams. Discharge to the environment must be avoided.

Methods and Materials for Containment and Cleaning Up

Stop the leak if it can be done without risk. Move containers from the spill area. Prevent entry into sewers, water ways or soils by diking and recovering large spills. Contain and collect spillage with non-combustible, absorbent material such as sand, earth, vermiculite or diatomaceous earth. Soak up small spills with inert solids (such as vermiculite, clay) and sweep/shovel into vented container. Dispose of all residuals according to local regulations via a licensed waste disposal contractor. Containers and contaminated absorbent materials may pose the same hazards as the spilled product. Wash spill area with a strong detergent and water solution; rinse with water but minimize water use during clean up. See section 1 for emergency contact information and section 13 for waste disposal.

SAFETY DATA SHEET

Date Prepared: 4/17/2014

Date Printed: 4/13/2015

7. HANDLING AND STORAGE

Precautions for Safe Handling

Avoid breathing vapors or spray mists. Avoid contact with eyes, skin, and clothing. Keep container tightly closed and store in a cool, well ventilated area away from: heat, sparks, open flame, strong oxidizers, radiation and other initiators. DO NOT store above 40 C (104° F). If frozen, warm and remix material gently (<90F). Prevent moisture contact. Prevent contamination by foreign materials.

Conditions for Safe Storage

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well ventilated area, away from incompatible materials (see section 10) and food and drink. DO NOT store above 40° C (104° F).

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

EXPOSURE LIMITS

HAZARDOUS COMPONENT	PEL	STEL	TLV	Other
Polyether Polyol Resin	NE	NE	NE	NE
Tris (2-chloroisopropyl) phosphate	NE	NE	NE	NE

Engineering Controls

Use local exhaust to provide adequate ventilation. Exposure limits have not been established for this substance. Respiratory protection may be required in addition to general room ventilation.

Respiratory Protections

In case of inadequate ventilation use a properly fitted, air-purifying or air supplied respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards or the product and the safe working limits of the selected respirator.

Eye/Face Protection

Eye protection such as chemical splash goggles and/or face shield must be worn when possibility exists for eye contact due to splashing or spraying liquid, airborne particles or vapor. Contact lenses should not be worn.

Skin and Body Protection

When skin contact is possible, protective clothing including apron, sleeves, boots head and face protection impervious to this material should be worn. Wear chemical resistant gloves such as neoprene, rubber, latex, etc.

Other hygienic practices

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

OTHER WORK PRACTICES

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet facilities. Promptly remove soiled clothing and wash thoroughly before reuse. Shower after work using plenty of soap and water.

SAFETY DATA SHEET

Date Prepared: 4/17/2014

Date Printed: 4/13/2015

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	
Form	Viscous liquid
Color	Clear Straw
pH	Not available
Melting/Freezing Temperature	- 20 C/-4 F
Boiling Point	> 270 C/ 518 F (Decomposes)
Flash Point	> 148 C/ 298 F
Ignition Temperature	Not available
Autoignition Temperature	Not available
Lower explosive limit; na	Upper explosive limit: na
Vapor Pressure	Not available
Vapor Density (air=1)	Not available
Specific Gravity (water=1 @39.2F)	1.06 @ 25C/77F
Percent Volatiles	< 1%
Evaporation Rate (Bac=1)	Not available
Odor	Mild
Odor threshold	Not available

10. STABILITY AND REACTIVITY

Chemical Stability

Stable under recommended storage conditions

Possibility of Hazardous Reactions

No data available. See materials to avoid below.

Conditions to Avoid

High temperatures, localized heat sources (i.e., drum or band heaters), freezing conditions, direct sunlight, ultraviolet radiation, strong oxidizers, strong acids strong alkalis. Keep container tightly sealed.

Materials to Avoid

Reactive or incompatible with: strong oxidizers, strong acids strong alkalis.

Hazardous Decomposition Products

Acrid smoke-fumes, hydrocarbons, carbon monoxide, carbon dioxide, phosphorous oxides, hydrogen chloride gas and perhaps other toxic vapors may be released during a fire involving this product.

11. TOXICOLOGY INFORMATION

Toxicity

Acute Toxicity

LD50: (Oral rat)	5,000 mg/kg	Polyether Polyol
LD50: (Oral rat)	< 2,000 mg/kg	Tris(2-chlorisopropyl)phosphate
LD50: (Dermal Rabbit)	> 1,000 mg/kg	Polyether Polyol
LD50: (Dermal Rabbit)	> 2,000 mg/kg	Tris(2-chlorisopropyl)phosphate
LC50: (Inhalation Rat)	> 7 mg/l	4-hr Tris(2-chlorisopropyl)phosphate

Skin Corrosion/Irritation

Skin Mild Irritant

Serious Eye Damage/Eye Irritation

Eye Mild Irritant

SAFETY DATA SHEET

Date Printed: 4/13/2015

Respiratory

Respiratory

Mild Irritant

Respiratory or Skin Sensitization

None Known

Mutagenicity

None Known

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as carcinogen or potential carcinogen by ACGIH

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP

12. ECOLOGICAL INFORMATION

Aquatic Ecotoxicity

No data available for Polyether Polyol

Based on Tris(2-chlorisopropyl)phosphate

Acute 96 hr LC50	56.2 mg/l	Fish
Acute 48 hr EC50	131 mg/l	Daphnia magna
Acute 72 hr EC50	82 mg/l	Freshwater algae

Chronic Toxicity Based on Tris(2-chlorisopropyl)phosphate

No Observed Effect Concentration (NOEC) in Daphnia magna is 32 mg/l

Biodegradability

Not readily biodegradable

Not bioaccumulative

Mobility in soil

No data available

13. DISPOSAL CONSIDERATIONS

Waste Disposal

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residuals. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. When a decision is made to discard this material as supplied, it does not meet RCRA's characteristics definition of ignitability, corrosiveness, or reactivity and is not listed in 40CFR261.33. The toxicity characteristic (TC), has not been evaluated by the Toxicity Characteristic Leaching Procedure (TCLP).

14. TRANSPORTATION INFORMATION

DOT (US)

Not Regulated

15. REGULATORY INFORMATION

TSCA INVENTORY STATUS

All components are listed or exempt

OSHA HAZARDS

Skin, Respiratory, and Eye irritant

	HMIS Classification	NFPA Rating
Health Hazard;	1	1
Flammability	1	1
Physical Hazards	0	0

SARA TITLE III: Section 311/312 Hazard Class

Acute Health Hazard, Chronic Health Hazard

SARA TITLE III: Section 313 (40CFR370)

This product does not contain a chemical which is listed in Section 313 at or above the de minimus concentrations.

CERCLA Information (40CFR302.4)

This material contains no hazardous or extremely hazardous substances at or above the de minimus concentrations as defined by CERCLA or SARA Title III, and release is therefore not reportable.

California Proposition 65 Information:

This product contains, no listed substances known to the state of California to cause cancer and/or reproductive toxicity.

16. OTHER INFORMATION

Some of the information presented and conclusions drawn herein are from sources other than direct test data on the product itself. The information in this SDS was obtained from sources, which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be applicable. This SDS has been prepared in accordance with the requirements of the OSHA Hazard Communication Standard (29 CFR 1910.1200).
