20 YEARS OF
SPORTS &
THERAPEUTIC
ACCESSIBLE
RECREATION

Annual Appeal

20 YEARS OF S.T.A.R.

S.T.A.R. began in 2003 when occupational therapist Renee Gamberoni and parent Max Goode saw a great need within our community for sports and recreational activities for children with special needs. Now, individuals with identified needs and their peers have gained access to sports and recreational activities together.

OUR IMPACT

"Because of Nantucket S.T.A.R., our children are able to access sports and recreational activities as a family. The boundaries of a disability are non-existent, and in its place are only the laughter and the joy they experience. S.T.A.R. teaches children of all abilities to have empathy and compassion; and to work through challenges together. Thank you for being a constant in our lives over the years!"

offered

OUR MISSION

Our mission is to offer inclusive recreational opportunities that support and celebrate diverse strengths and abilities through collaborations with families and community partnerships.

We strive to provide a wide variety of year-round programs for remarkable individuals that showcase their *abilities* versus disabilities. Accessibility is at the heart of what we do and we aim to keep our programs open to all, regardless of financial or language barriers.

OUR PROGRAMS

Throughout the year, S.T.A.R. provides quality recreational programs, sports and activities such as ice skating, sensory art, cooking classes, family playgroups, fitness classes, adaptive water sports, swimming programs, field trip groups and more!

We continue to add additional programs, thanks to our community partners, such as gardening, sensory-friendly movies, adaptive bicycling and science adventures.

We can't do it without your generous *support.*

Your generosity directly supports inclusive programming and affordable recreation for individuals with special needs.

Please spread the word and give generously this season. Together we make our stars shine!
