

"For years I have avoided wearing shorts or shorter skirts in order to hide significant keloid and hyperpigmented surgical scars on both thighs and my abdomen (the abdomen resulting from a mini tummy-tuck procedure). I am a very active person and love to hike, swim, and attend spin, yoga, and Pilates classes. Having to wear longer workout pants and constantly trying to hide my scars when on the beach was becoming extremely frustrating. I wanted my carefree pre-scar life back. I consulted with a top LA area dermatologist on possible treatment options. She recommended fractional CO2 treatments as the best method of reducing the appearance of surgical scars. Through my research I found Astrik at Petra Medi-Spa. From the initial consultation Astrik was very approachable and personable. She took the time to discuss the procedure, expected outcomes, and answered all of my questions. After my first treatment she even called to follow-up on how I was doing and to see if I had any additional questions or concerns. I have received 5 fractional CO2 laser treatments and I couldn't be happier with the results! The treatments were performed flawlessly and the results exceeded my expectations. She has practically turned back time and given me back the confidence and freedom I used to have, not to mention the renewed feelings of being beautiful and sexy again. Astrik is an incredible laser technician with amazing skills and technique. I can't thank her or recommend her enough!!"

- JT, A Happy Client

"Over the years I've heard many opinions, never expecting one day I would share mine. I am referring to my continued satisfaction and success with Petra Medi Spa. As a teen and throughout my entire adult life, I have lived with numerous skin and scarring issues. I've gone from one dermatologist to another, using home remedies, etc, and every prescription under the sun, always with the hope of finding a solution to my increasingly aging, scarring face. Nothing ever worked. Finally, a cherished and trusted friend — who has consoled me through all the expensive and false promises I have had through the years — told me she had someone I needed to meet. That's when my successful, life-changing relationship with Astrik from Petra Medi Spa began. Petra Medi Spa is like no other Medical Spa I have been to. From the tranquil atmosphere, to the professionalism of the staff, to the moment I met Astrik, I knew they honestly cared about me and understood what I have been through. Most importantly, Astrik gave me her professional opinion regarding my specific needs. She didn't make false hopes or promises. I wasted no time in beginning my therapy with her, and after three CO2 peels, the results are unbelievable. I would never believe, as a woman in my early 50's, that my confidence would be where it is today. Not only have I referred my family and friends to Astrik, but my ultimate hope is that everyone reading this heartfelt message will reach out to Petra Medi Spa as well. Let's face it, I know I'm in an older age category, but you better believe I'm on the top of the world and feeling more and more confident and radiant every day. Thank you Bertha for referring me to Astrik at Petra Medi Spa. Astrik and the team are exemplary professionals who have exceeded my expectations and made me feel special and whole again. I am forever happy and grateful."

- Ms. Banks, Loving the Services

"I have experienced wonderful result from my CO2 laser Astrik 's professional services are rated top notch. It has given me confidence in my appearance, my youth and I love it. I have taken few of my friends to Astrik and they all have been pleased with their result. I would highly recommend her."

- BG, Wonderful Results

"I have used the services of Petra Med Spa several times and have been extremely happy with my experience there. The place is nice and cozy. Ms. Astrik is a great and trustworthy expert in the field and is always ready to help with an advice. The prices are very reasonable. I was able to see the result of the procedures right away and they last for a long time. I have been feeling more comfortable and selfassured since having had different procedures done. I would highly recommend Petra Med Spa to any woman who wants to look and feel better."

- VD, Extremely Happy

"The results are lasting. I get compliments from others on how great my skin looks, which is nice, but nicest by far is how my skin appears and feels to ME! Much less thin and crepe-ish with much the same resilience as I had 15 or 20 years ago."

- JH, Long Lasting Results

"I am fairly new to receiving fillers. My first experience was with a plastic surgeon and it was not pleasant at all. It was quite uncomfortable. Then I decided to give another try and went to Petra Medi because I was referred by a relative to see Astrik. I was very nervous and expected something similar to my first experience. However, I was pleasantly surprised. It went so quick and easy — no pain. I was shocked that it didn't hurt. I loved the results and went back for a Co2 laser treatment. I needed a little down time, but I planned for it. I did feel hot in the face for a short period afterwards, but Astrik explained all of this beforehand and prepared me. I noticed immediate results. I hope to get another one eventually. Recently I tried fillers for the first time and I was surprised again because it was not a big ordeal. It was pretty quick and the results were immediate. Astrik is very personable and explains what she is doing. Best of all, my results are very natural looking and nothing is ever over done. I am very satisfied with the services I received from Petra Medi Spa so far and plan to go back. I highly recommend Astrik at Petra Medi."

- , The best Treatments

"I've been seeing Astrik for almost two years now getting the LipoMax Shots on a weekly basis. I've started getting these shots to help with lowering my cholesterol and let me say that it does work. I feel that these shots have helped me considerably. I encourage you to visit Petra Media Spa. You will find Petra Medi Spa very clean and very friendly and the staff are always polite. Astrik always greets you with her beautiful smile. She takes her work very seriously. The spa also offers other amenities, in addition to vitamins."

- Teri, What a place, I love it.

"If you want to do injectables definitely go to Astrik at Petra Medi Spa. Astrik has always giving me her opinion and then explained everything to me in detail. Astrik is giving me such good results that even though I am at 60, people think I'm in my 40's. She has given me the best results. I'm so glad I started going to her and did not spend twice as much money in Beverly Hills for not looking as good and for paying double the money. I started going to her because I thought I look tired she recommended that I needed Botox and the results were amazing my eyes looked alive again. In couple of months, I tried fillers on my smile lines and a little to my lips. The results were, again, AMAZING! She knows what she's doing and is a master at her art. If you ask what you should do to make yourself look better she will tell you and not try to give a treatment that you do not need. If anything she's so honest that she tells you a very conservative approach to look better. She is so sweet and is very concerned with you as a person. I had a very rough year this year and she has been truly concerned about me and not pressured me to come in when she knew I was overloaded in my life. The rest of the employees are all a sweet, friendly as well. The facility is very clean and inviting. The parking is free which is an added bonus."

- KM, Love this Place
