Page 2,3,and 4 - Call to a Sixth Session of THE PROVISIONAL WORLD PARLIAMENT

Page 5 - Action in Africa

Page 6,7,8 - Letters from The Members ..... AND MORE...

**SIR REINHART RUGE**  
CO-PRESIDENT OF WCPA  
KNIGHT OF MALTA

For many years WCPA has developed its activities together with Dr. Reinhart Ruge as either President or Co-President.

He was born in Germany, but most of his life he has spent in Mexico, where he lives to nowadays. Dr. Reinhart Ruge is an civil engineer.

All his life he has participated in human movements in the world. He is among the first who joined WCPA and ratified the Constitution for the Federation together with Professor Philip Isely, Secretary General WCPA.

Occupied by the work for WCPA, Dr. Reinhart Ruge has traveled around the world taking part in many conferences, speaking to assemblies and governments of different countries.

Today he is Co-President of WCPA, together with the Vice President of Federal Republic of Nigeria, Mr. Atiku Abubaker, and Dr. Leo Rebello, political activist from India.

For his activities, for promoting peace and world understanding, he has been rewarded with the title The Knight of Malta year 2002, the title he has deserved with all his dignity.

**CALL TO A SIXTH OFFICIAL SESSION OF  
THE PROVISIONAL WORLD PARLIAMENT  
ON THE EARTH APRIL 2004  
AND PREPARATORY MEETING ON MALTA  
10<sup>th</sup> 11<sup>th</sup> AND 12<sup>th</sup> OCTOBER 2003**

**World Government is more than 55 years overdue, and should have been established in 1946 instead of the misleading United Nations Organization which is based on the perpetuation of national sovereignty.**

**Almost all problems of living on Earth have been getting worse for most of the people on Earth, despite fantastic technological innovations. Just and sustainable solutions to global and international problems cannot be solved without World Government.**

The Constitution for the Federation of Earth is ready now for immediate ratification by the nations and people of Earth, and for immediate practical implementation. Recognizing that World Government is already many decades overdue, and that enormous problems have grown and festered and become more complex and difficult each year in the absence of any way to work out good solutions, every effort must be made to expedite ratification.

The world problems requiring solutions have been described so often that this Call will shift attention ahead to a few of the urgently needed solutions, which can be rapidly put into effect as soon as the Constitution for the Federation of Earth is ratified, and some important respects even as soon as the first 25 countries have ratified. Early benefits under the Constitution for the Federation of Earth may include:

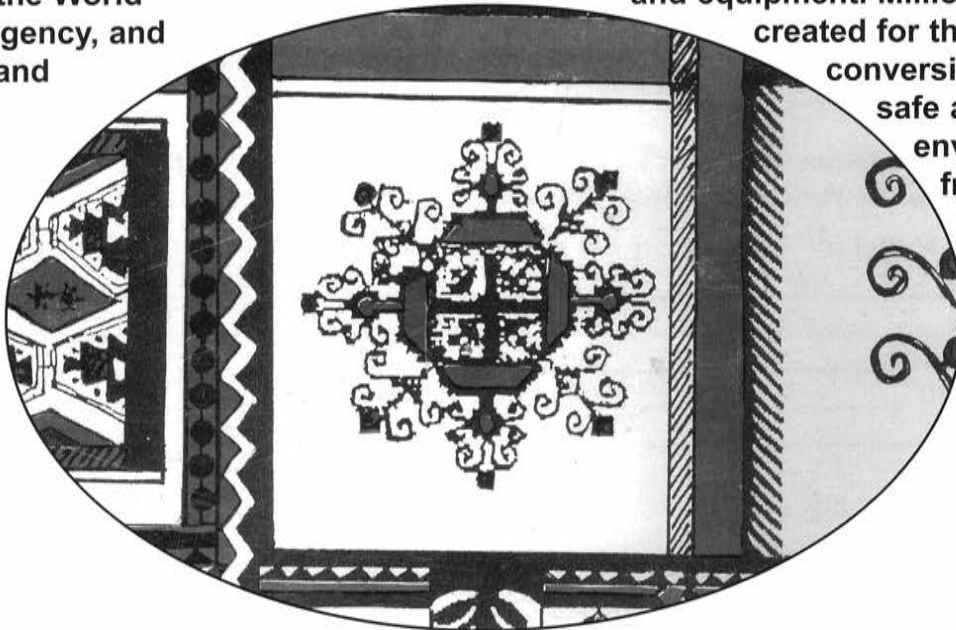

-All nuclear weapons are immediately defused and then dismantled, under supervision of the World Disarmament Agency, and further testing and production prohibited. All weapons of mass destruction are put under the control of the World Disarmament Agency.

Most dangers of war and military dictatorship are thereby eliminated.

-Priority is given to a globally coordinated program of several hundred billion dollars per year to deal with the climate crisis. Comprehensive remedial action is based on an understanding of the extremes of both heat and cold and other climatic turbulences resulting from the "differential greenhouse effect", which is triggered primarily by excess carbon dioxide accumulations in the air and loss of Earth fertility.

-Human rights are protected everywhere, according to the guarantees and directive principles in the Constitution for the Federation of Earth.

-Very rapid worldwide elimination of fossil fuels and of nuclear power is expedited, both technologically and financially. Rapid transition is made to solar, hydrogen, magnetic and other safe sources and equipment. Millions of jobs are created for the work of conversion to the new safe and environmentally friendly energy technology.

The oceans of Earth are owned and managed truly as the common heritage of humanity, and likewise the air space above the Earth.

These are a few of the benefits to be derived from early ratification and implementation of the Constitution for the Federation for the Earth.

All of the above is made possible by the careful design in the Constitution for the Federation of Earth for the World Parliament.

THEREFORE, THE NEXT SESSION OF THE PROVISIONAL WORLD PARLIAMENT IS HEREBY CALLED, TO BE ORGANIZED UNDER ARTICLE 19 OF THE CONSTITUTION FOR THE FEDERATION OF EARTH, TO CONVENE APRIL 2004, SOMEWHERE IN AFRICA ( TO BE DECIDED AT THE PREPARATORY CONFERENCE).

The travel, hotel, meals and other expenses of delegates must be paid by the national governments, or by the organizations, or by delegates themselves.

**NOTIFICATION OF INTENT TO SEND DELEGATES TO THE PROVISIONAL WORLD PARLIAMENT**

( ) The following named Organization, affirming support for ratification of the Constitution for the Federation of Earth, joins in issuing the Call to the Parliament and plans to send \_\_\_ number of delegates to the 2004 Provisional World Parliament.

Name of Organization \_\_\_\_\_ Date \_\_\_\_\_  
President or Chairperson \_\_\_\_\_  
Name of the Delegate \_\_\_\_\_

# Letters From the Members

## ACTION IN AFRICA

Dear Sir,

I am very pleased to sincerely congratulate for your good initiative by creating such an important organization.

I get the opportunity to be informed by our coordinator Mr.Adjangba. He made me understand that you made many efforts to associate our continent Africa to this fabulous program.

As the Chairman of this NGO- Action in Africa, I am taking the chance to make this approach, because we are very close to the people in need.

We have many things to discuss with you concerning the problems in our sub-region, because a lot of realities are most of the time being hidden by the politicians.

Personally, I am a native of Togo who has been in exile for more than twenty three years because of political reasons.

I have some strong contact with some officials as well as opposition parties in countries like: The Republic of Benin, The Republic of Togo, Ghana, Cote d'Ivoire, Liberia, Sierra Leone, Burkina Faso and Mali.

I maintain a very good relationship with the former authorities as well as the members of the present government.

With the full conviction to meet you for proper planning, I am giving you the assurance to be useful to such a marvelous creation. That is a big challenge on behalf of Action in Africa with a determination to meet you soon.

Sincerely  
Julien H. Ayayi

## LETTER FROM MINSK

July 2003

Dear Sir

I learn about your organization with great pleasure and inspiration. I've got a question how to send you the fee and how to join you and specially work for Global Ministries.

About myself:

I am Nellie Kراسиuk, assistant professor at Polish High Humanitarian School training teachers, lawyers, businessmen. My students are also interested in getting more information about you.

Last year we read a big article about globalization which we liked and shared the ideas.

I have two sons who are students and we can do a lot for the mankind.

Please, let me know more from your answers.

Sincerely

Nellie Kрасиuk

### A letter from Liberia

Having been well inform about the purpose to solve global problem and care for the welfare of the people on earth planet, I was delighted to pass the information to other thirty thousand people who took refuge to America embassy greystone.

Keenly looking at the problem facing the world while citizen hoping on League of Nations and United Nations to solve their problem that always turn to ill-fate. Like what happen between America invading Iraq without the approval of United Nations that brought bitter confusion between power nations and non-power nations world wide.

League of Nations, United Nations and world Leaders have failed the people of the world planet. Therefore I call for the replacement of these organization by Federation of Earth.

With Federation of Earth the world will be properly govern and there will be one understanding, one peace to one world. With this action, racism, tribal conflict and individual greed will be wipe out from the world. I also use this opportunity to call on WCPA Leaders to join peace lovers to settle Liberia problem as the America President is visiting Africa. The on going ravage war in Liberia is claiming thousands of life everyday.

Liberia needs immediate help, aidrelief and fund for evacuation and resettlement. Libearians will be pleased for any assistance given.

As the saying goes, blessed are the leaders that make peace come to pass.

I remain  
Festus Osafanwen  
Monrovia, Liberia

### INVITATION AND RECOMMENDATION FOR SIXTH SESSION IN RSA

World Solidarity Movement, South Africa send greetings to all WCPA and Mr. Philip Isely. We hereby wish to invite you to consider that we host the 6th Session of WP in South Africa during July/August 2004.

WSM will provide the facilities for accommodation and Conference including the prep and overall infrastructure. We are preparing the documentation for the Establishment of the Federal World Union which would be then integrated therein.

A large number of AU members have shown interest and the result is that it does not seem unlikely that the AU would adopt the CFE as an entity with strategic approach. **Why don't we form a coalition and host and present the largest and most constructive Session of World Parliament ever?** In RSA all sponsored and infra-structures readily available for WG to use. Photos of all buildings will be e-mailed through upon your consideration of the suggestion. Together towards a WORLD GOVERNMENT and WORLD PEACE.

Sincerely  
Baez van Heerdeen

## THE ENSOPHION OF HUMANITY

To Whom It May Genuinely Concern:

Dear Light Co-worker,

We are writing this, to request your assistance for contacting soul-infused New Age Teachers, Healers and Practical Visionaries, who are aspiring to participating in the Ensophion of Humanity, for furthering, through new group service, the One Life Plan.

The ground-work, for the functioning of the Ensophion, consisting of lands, buildings, meeting, teaching and meditation room, library, vegetarian restaurant, residential units and recreation areas, etc , have already been completed upon the premises of the New Humanity Centre, a not-for-profit organism. The Ensophion is conceived, planned and purposed to be pursuing the following new cosmo-poetic activities, namely:

1. To be a cosmopolitan New Age Discipleship Centre which is for training mentors and disciples in the Ageless Wisdom Teachings initiating and qualifying them for world service dedicated to the spiritual advancement of Humanity and the Hierarchy.
2. To become a New world centre promoting a One New Humanity-Spiritual Hierarchy Cosmopotism in all the ten fields of panhumanic endeavor through the practice of Self-gnosis, Creative meditation, Self-therapy and Self-ascension, all aimed at bringing about Unity, Peace and Prosperity to the whole world.
3. The Ensophion is directed and destined as to eventually become, in spacetime, a true Preparatory Esoteric School in Greece, which is spiritually connected with the Advanced Esoteric School of Egypt. This fact ia already prophesied, by the Tibetan Master, in the book by Alice Bailey letters on Occult Meditation .
4. To be serving as well as a self-sustaining new world Eco-Village Biocommunity (Coenobium) that is catering to teachers, healers, co-demiurgors and students who are together performing world group work.

This is a proposed selfless light co-work Program-Project of the Ensophion, which now needs to be filled with Love and Light and be a homestead with spiritually minded people.

Hari Homaro Vacal  
Spiritual Project-Program Coordinator

Mr.Sarwar Alam  
Youth Coordinator WCPA/GREN

**Y O U T H   S E C T I O N**

Dear Colleagues,

Greetings!

We would like to take an opportunity to introduce our organization and its objectives to you in brief. The World Constitution and Parliament Association (WCPA) organized in 1959, is composed of individual members in many countries with local chapters and national branches. The Global Ratification and Elections Network (GREN) was started by WCPA in 1992, and is composed of organizations of diverse kinds and programs, but joined to achieve the ratification and implementation of the Constitution for the Federation of Earth and legislation adopted by the Parliament. GREN organizations elect delegates to the Provisional World Parliament. Till to date, the GREN has about 2,300 participatory organizations in more than 146 countries with a combined individual membership of about 150 million. Youth organizations represent the majority of individual

about 150 million. Youth organizations represent the majority of individual members, which help speed this campaign to establish a non-military democratic federal World Government, before universal tragedies overwhelm us.

Because of the United Nations being ineffective of what it was set up for young people from all over the world thought it was time for the UN to be reformed. But the UN cannot be reformed because its charter cannot be amended and the proposed improvement without amendments is delusions. It has failed to solve global problems because there are defects in the organization. Therefore, what is truly needed is nothing less than an entire different and new Constitution for the Federal World Government. This was fully recognized as early as 1946. The truth of the necessity for World Government has since been covered up and treated as unrealistic, but still remains the basic practical requirement for a peaceful world society able to solve global problems and serve human needs. Our organization WCPA and GREN seek to replace the Charter of the United Nations with a democratically drafted Constitution for the Federation of Earth. Understanding that the United Nations as a world governing body is ineffectively and inadequately structured to deal with growing number of critical world problems since 1958, people from all continents have gathered, debated and drafted the Constitution for the Federation of Earth.

We know that young people are dominating the world population and are always playing a very important role at both national and international levels in securing a peaceful, livable world for all.

Young people need to take a leadership role in the work for global movement of democratic World Government, the last chance and hope to save Planet Earth and its inhabitants. Therefore, we seek your participation, support and leadership in making the ongoing global movement for World Government a grand success.

For your organization to join GREN, the global campaign for World Government, we are enclosing the GREN Resolution Form as well as a Reply Form to nominate your representatives to work with the global and regional youth action committee for GREN. Please, respond as quickly as possible because the action is necessary urgently as world political, environmental, social and economic situation are deteriorating every day. We need the right alternative now.

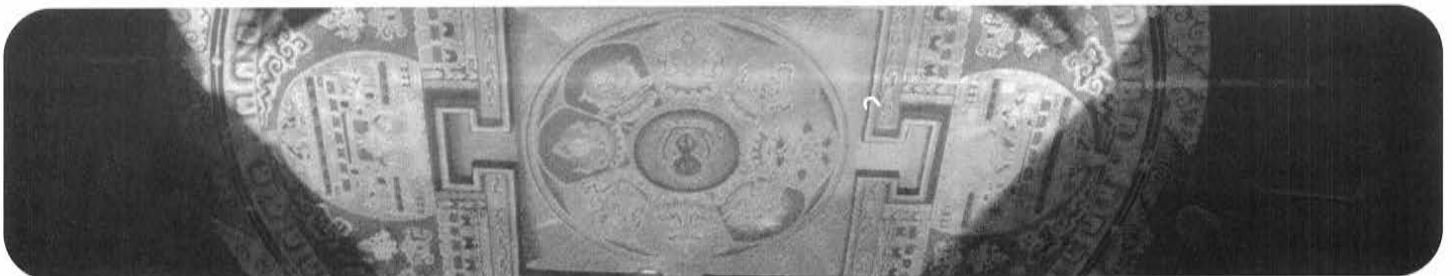

If you have access to internet you may try to read further about our organization and study the Constitution for the Federation of Earth (available in different languages) by visiting [www.wcpagren.com](http://www.wcpagren.com) website.

Thank you  
We look forward to hearing from you

FOR ADEQUATE ACTION IN TIME FOR  
THE HAPPY SURVIVAL OF PEOPLE ON  
EARTH

Sincerely

Sarwar Alam  
Chairperson, Youth Commission,  
WCPA/GREN

## Weapon Industry - Charles Mercieca Ph.D.

### MAKING MONEY AS MAIN OBJECTIVE

continue from the last issue

If we were to study the tactics of the weapons industrial complex since World War II ended 1945, we will discover something curious which happened with regularity and with no virtual exception. This demonic industry had always agents who went from one global area to another for purpose of creating civil strifes within the same nation and/or with neighboring countries. The goal was always the same, namely, to install fear in each fraction or group and then to offer each one of these fractions or groups all the weapons needed to defend themselves from possible attack by the enemy.

What is outrageous lies there. The weapons industry sells weapons to anyone that gives the right price, friends and enemies alike. Such an industry, as stated earlier, does not care about the safeguard and sacredness of human life. Yet, the people of the nations where weapons are manufactured and sold, above all the United States, cannot see how they themselves became victims of brainwashing and indoctrination that is sponsored, very often, by the government itself. We need here to raise a serious question: **How is it that the nations of the world, which manufacture and sell weapons, claim to believe that the military is the only effective means available to solve all the problems of the world?**

As we know from the history, the military may be described as a brutal organization, which is licenced by legitimate governments to massacre people indiscriminately without any investigation or trial. The policy of the military is not conversation or dialogue to come to solutions based on mutual interests. Its policy is violence, which explains why all soldiers are equipped with weapons of

destruction and not with books of learning, with food to feed the hungry they encounter, and with medicine to cure the sick.

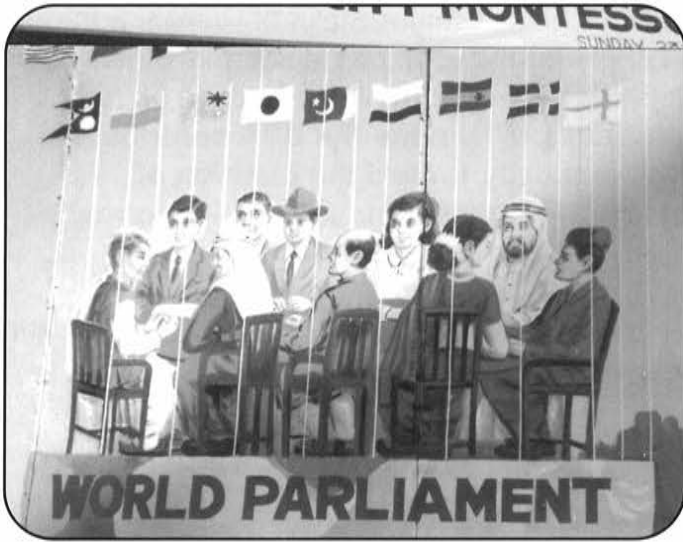

This is the real picture of the military, even though the government tries to hide this reality by presenting the military to the general public performing marches with flags while trying, at the same time, to entertain people by playing the band. We are all familiar nowadays with how the United States reacted to the act of terrorism in New York and Wahington, DC on September 11, 2001. It did not consult any of its thousands of civic, educational and religious organizations.

### GROUNDWORK OF FUTURE MILITARY DICTATORSHIP

The United States responded by committing a similar act of terrorism in Afghanistan, under the guide that the USA and the world were after to get one man known as Osama Bin Laden, who was presumed to be directing these acts of terror. Thousands of innocent people died in New York and in Washington, DC and thousands of innocent people equally died in Afghanistan. This was putting into operation the eye for an eye and the thooth for a tooth philosophy we find in the Old Testament. Ironically, the USA is a predominantly Christian nation whose Master Teacher, Jesus of Nazareth, viewed this kind of philosophy as vicious and evil.

After the United States devastated Afghanistan with bombardments and destroyed virtually its entire infrastructure system, instead of deciding with most of its self-proclaimed allies to rebuild a demilitarized nation, it has set a priority the creation of an Afghanistan army that will include 60,000 soldiers, 8,000 strong air force and

City Montessori School or CMS as it is popularly called is highly honored and privileged on being awarded the UNESCO Prize for Peace Education 2002. CMS is a Guinness world record holder for being the world's largest city-school with over 26,000 students on roll. Besides consistently excellent results, the school is known for its emphasis on developing spiritual qualities and inculcating a global perspective and international vision in children.

Last few weeks we've got weekly reports of the World Parliament seminar held in CMS, Gomtinagar brunch under the aegis of the Graduate School of World Problems, India, sent by Smita Chandra, Assistant Secretary GSWP, India Campus. The seminars are addressed by MR. Jagdish Gandhi,

Founder CMS and President GSWP, India Campus, Mr. R.S. Chandola, HOD CMS, Dr. Preeti Shankar Editor CMS and Mr. Shishir Srivastava, Deputy Co-ordinator CMS.

**Mr. Jagdish Gandhi** said that the continuing deterioration in the international environment and world's ever-increasing nuclear arsenal, together with global warming and consequential climatic changes pose a serious threat to the very survival of life on our planet. The series of conferences organized by CMS on Article 51 of the Constitution of India are part of its campaign to make the world realize the urgent need of the formation of a World Government to solve these problems that require joint international attention. Mr. Jagdish Gandhi expressed his hope that the 4th International Conference of Chief Justices of the World would greatly strengthen this issue further and the voices of these children would be heard by all the leaders of the present world as well as the judiciary. He was very happy to note that students were so much aware about the present world situation and felt so acutely a change was needed in the present world scenario.

**Mr. R.S. Chandola** spoke about the qualities of a ideal world citizen. He said that a world citizen shoulders an immense responsibility of being role model of others. He is an enlightened, concerned and responsible individual who sees his life as a mission to serve humanity. CMS is constantly trying to train the students to achieve the high ideals of world citizenship and also making them sensitive to the needs of the present century. The CMS peace education program is an education for life.

**Mr. Shishir Srivastava** gave the participating students some tips on the art of effective speaking. He said that in order to make others comprehend the depth of our views it is important that whatever we speak is said in a simple yet effective way. We should believe in ourselves and analyse all the aspects of our views we express them in public. A balance of sweetness and conviction is the most important aspect of any speech, he said.

*Prof. Philip Isely, Secretary General WCPA  
and his wife Mrs. Eli Isely MA,  
Deputy Secretary General WCPA, visiting CMS.*

cont.from page 9

70,000 personnel in para-military role. The present government in Afghanistan has already earmarked \$235 million dollars for military spending in 2002 alone. Thus, the United States is letting the groundwork for a future Mobutu of the former Zaire, a future Pinochet of Chile, a future Suharto of

Indonesia, a future Abacha of Nigeria, a future Mao of China, a future Stalin of Russia, a future Hitler of Germany, among numerous other brutal dictators. The question that needs to be raised here is this: **Why does the USA contribute systematically toward the creation of dictatorial regimes that prove afterwards to be so brutal and merciless?**

to be continued in the next issue
