Rixos Hotel Residence Apartment

Envision stepping into serene elegance, a world away from Dubai's vibrant energy. This recently renovated apartment within the Rixos Hotel Residence offers exactly that, boasting stunning panoramic views of the iconic Palm Jumeirah.

Originally a standard hotel apartment, the space has been transformed by the Hi Projects design team. They envisioned a haven for a young family, cleverly combining the kitchen and living area into a welcoming heart of the home. Warm wood tones create a sense of warmth and comfort, while subtle marble accents add a touch of sophistication. Picture cozy evenings spent together, laughter echoing in this inviting space.

The master bedroom is a private sanctuary, a place to unwind after a busy day. A cozy nook promises quiet moments with a good book, while the minimalist ensuite bathroom promotes a sense of tranquility and well-being.

This project is a testament to the design studio's philosophy. Here, practicality and aesthetics dance in perfect harmony. The seamlessly merged spaces ensure comfortable living for a young family, while the stylish touches elevate the everyday. This is not just an apartment; it's a serene oasis reflecting the vibrant spirit of Dubai, yet offering a refuge from its bustling pace.
