

Request For Player Replacement

Managers please note:

The board will do its best to provide a player of similar skill to the player being replaced. However, this may not be possible due to the availability of the preferred pool players. Upon submitting this form you will be provided with a replacement player with skills equal to or lesser ability to the player being replaced. Refer to the league rules and regulations, rule 8, for clarification. You do not have the option to reject the selected replacement. A temporary replacement player can be requested if the replaced team player is going to miss at least four games. Rainouts or unscheduled cancellations of games during the temporary players time will be considered as part of the replaced team players absence.

Players joining the league after the season begins must either have board approval and agreement on the players skill level or must participate in two of the pregame practices for a skill assessment.

Manager: _____

Team: _____

Date: _____

Player to be replaced: _____

Dates of Games Missed: _____

Replace Will Be: ___ Permanent ___ Temporary
