

Ultra Fencing™ Design Options

Ultra Aluminum™ fencing is available in a wide selection of design configurations. Residential available in 3-13/16" or 1-5/8" spacing. Commercial available in 3-5/8" or 1-1/2" spacing. Industrial fencing not available in UAB-200 or UAB-400.

Designer Accessories

Our cast aluminum designer accessories include scrolls, butterflies, circles and two styles of finials, all available in the same Powercoat™ finish for a perfect accent.

From Left To Right: Decorative Circles, Butterfly Scrolls, Large Scrolls, Quad-Finial, Tri-Finial, Ball Cap

ULTRA RAILING™

Ultra Aluminum™ 1.5" ADA Compliant Handrails

The Ultra ADA railing system can be installed on-site without any special tools, and allows for a continuous secondary handrail on most any stair, rail or ramp. It works well with Ultra Signature™ and Ultra Max® Railing systems.

Ultra Signature™ Collection

Ultra Signature™ Railing is ICC (International Commercial Code) compliant. The outer rail provides a secure hand grip, and completely covers all stainless steel fasteners for a sleek look. Railing panels come in standard 6' widths when flange mounted, and standard 8' widths when core-drilled; custom-size panels are available.

Smart Two-Piece Design

- Sleek and strong
- Slim extrusions to maximize view
- Hidden fasteners
- Impervious to insects

Eclipse™ Aluminum Privacy Panels feature strength and durability that you can't get from vinyl or wood—ideal for commercial or industrial applications.

Ultra™ Juliette Balconies are made in America of aluminum alloys with all welded corners, balusters and flanges for a secure fit to the building.

Pool Fencing

We design fencing to meet all the stringent BOCA pool safety codes, and to enhance your property at the same time. Most notably, the bottom rail can be flush with the bottom of the fence, so no pickets are exposed.

All pool fence sections come factory pre-assembled in 6' lengths with a broad offering of heights— 48", 54", 60", and 72". Custom lengths and heights available.

OUR FENCING IS SPECIALLY DESIGNED FOR SAFETY AROUND POOL ENCLOSURES.

Walk and Drive Gates

Matching Walk and Drive Gates can typically be manufactured in widths ranging from 3' – 28' and in heights from 3' – 8'. Please consult your sales representative for variations.

ULTRAMAX® ALUMINUM RAILING SYSTEMS

Code Approved – CCRR-0223

A safe, low-maintenance Ultra Lifestyle now comes in a kit.

Our easy-to-build railing kits provide safety and high quality—at a more reasonable price. Ultra Max® Railing offers an elegant handrail profile, with two classic baluster configurations, in 4 textured colors. They all come together to form a custom look and feel that will work well with your home and landscaping design.

Fast-Track 2-Piece Bracket and Baluster Installation
Ease of installation, combined with the strength of our aluminum construction, are the key features in the new Ultra Max® Railing Systems. The Ultra Max® Connector System allows for quick installation of balusters without any screws or spacers. It guides balusters in place and eliminates rattling noise.

Accessories

Add special interest to your porch or deck with our 6"x 6" and 8" x 8" Newell Posts and Columns—in colors to match your railing.

Aluminum Fencing and Railing

ULTRA FENCE™ | Residential | Commercial | Industrial

Industrial Strength

For applications where additional security and strength are required, Ultra has developed Industrial Series fencing. Our Industrial fence sections come in 6' and 8' lengths, and heights from 3' to 12'. Custom lengths and heights are available by special order. Some limitations apply; ask your sales representative for details.

Industrial Series also available in Premium grade, featuring a 2-piece fully encased rail that provides additional strength and hides the fasteners.

Environmentally Responsible
We are proud to use recycled aluminum in our products. Aluminum is the most commonly recycled metal in the world. Our Powercoat™ coating process is environmentally friendly and virtually pollution-free.

Lifetime Warranty
Ultra Aluminum™ Ultra Aluminum fence and railing products are guaranteed for life against defects in workmanship and/or materials. The exclusive Powercoat™ finish on all fencing and railing by Ultra Aluminum is unconditionally guaranteed for life against cracking, peeling or chipping. Visit our website for more information and a copy of the warranty.

Colors
Ultra Aluminum™ fencing, railing, gates and designer accessories are available in nine classic colors as well as custom specified hues. All colors are applied with an exclusive Powercoat™ finish to resist harsh weather and heat.

All gates are fastened and 100% welded at all connections and joints
Designed to stand up to the rigors of everyday use.

High-strength Ultrium™ Alloy, Made in the USA
It's as strong as steel, but will never rust. Ultrium is a 6005-T5 alloy, with a minimum ultimate strength of 35,000 psi.

Factory assembled, with stainless-steel fasteners
For structural integrity and strength you can count on.

Powercoat™ Finish—panels, gates, posts and designer accessories
Our Powercoat™ finish is twice the thickness and hardness of a typical acrylic, baked enamel, or "wet paint" finish, making it more durable, fade-resistant and scratch-resistant than other coatings.

Superior Product Design for Ultra-Strength

Residential and Commercial Series also available in Premium grade, featuring a 2-piece fully encased rail that provides additional strength and hides the fasteners.

We make a scale of fencing for every neighborhood and home style. All fence sections come factory pre-assembled in 6' lengths with a broad offering of heights—36" to 144". Custom lengths and heights are available by special order. Each section easily follows modest changes in grade along your property lines, or can be factory designed to conform to more prominent hills and valleys.

An independent test lab pushed our fencing and our competitors' to their limits. The Rail Strength Test revealed the extra pressure that Ultrarail™ can withstand on a daily basis, surpassing one competitor's product by nearly 100%.

An independent lab's accelerated weathering test shows that the Ultra's exclusive Powercoat™ finish maintains higher levels of UV Protection compared to other leading manufacturers' finishes.

RESIDENTIAL SERIES sets the standard for perimeter and pool fencing.
