

**Welcome to Downtown Bath**  
 Set along the scenic Kennebec River, Bath is home to one of New England's most intact 19th-century downtowns. Stroll a continuous streetscape of Federal, Italianate, and Greek Revival brick storefronts—now filled with locally owned shops, cafes, galleries, and restaurants bringing new energy to these historic spaces.

Main Street Bath celebrates 25 years as Maine's first nationally accredited Main Street program and a designated Great American Main Street. Working in partnership with the City of Bath, local businesses, nonprofits, and residents, we keep downtown vibrant and thriving.

Through year-round events, community programming, small business support, and historic preservation efforts, Main Street Bath creates opportunities for people to gather, explore, and invest in historic Bath, Maine.

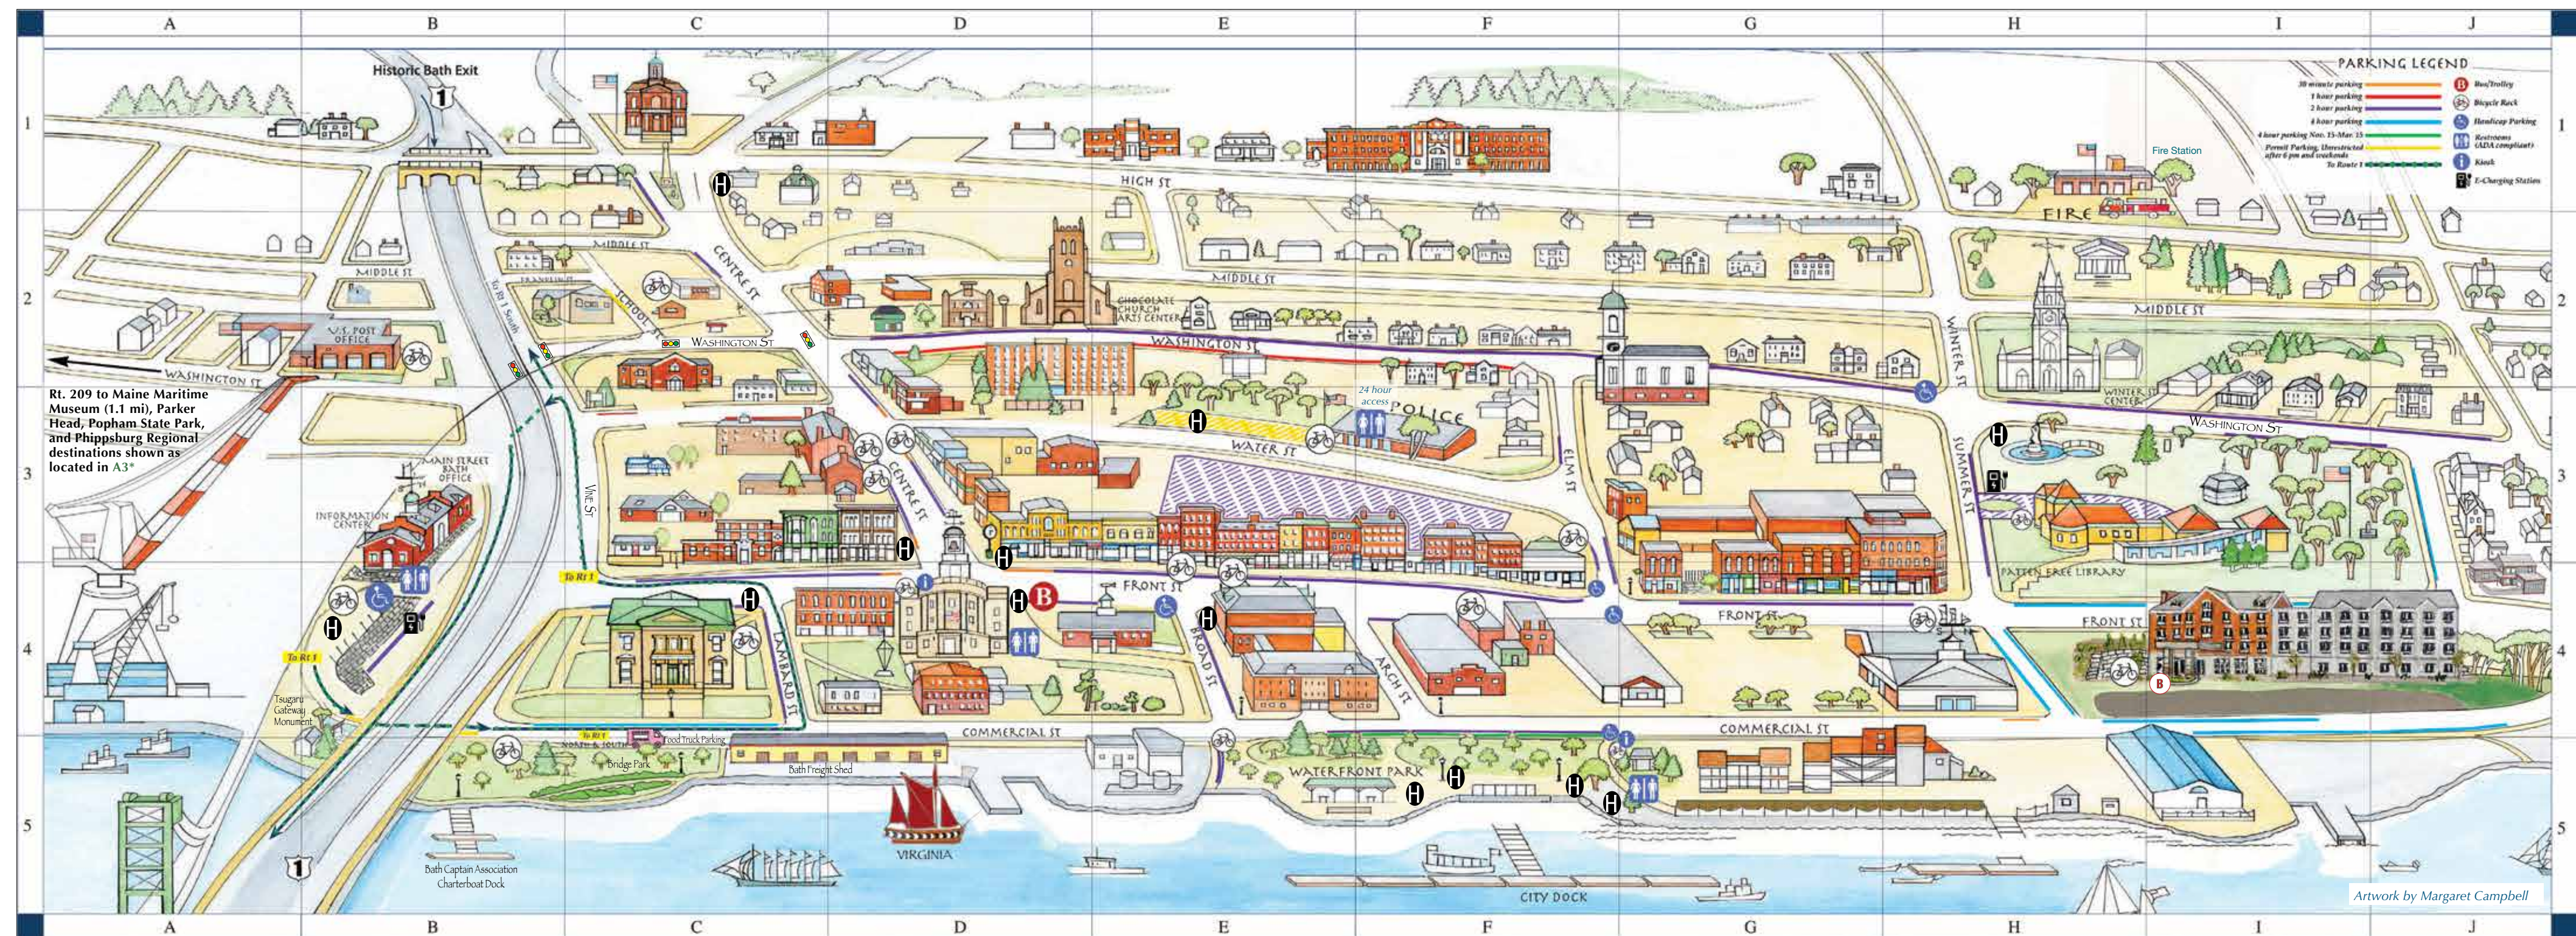

Main Street Bath also welcomes visitors to the region through the Bath Regional Information Center and VisitBath.com, offering helpful information on local history, attractions, events, and everything there is to experience in Midcoast Maine.

Whether you're here for the day or staying awhile, we invite you to discover all that Bath has to offer.
