

## Emilio DelToro

**Emilio DelToro** - Emilio is an East Windsor resident since 2003, board member since 2018 & current Secretary of iCare of East Windsor Hightstown.

Emilio came to the US from Mexico to work in Banking and Credit Score industry, telecommunications industry, and for the last 10 years has worked for Bank of America's Global Technology & Operations as an IT Solutions Engineer.

Emilio's younger daughter has been battling depression and anxiety since 7<sup>th</sup> grade and his family experienced the appalling response of our health system to mental illness. From the difficulty of finding information, locating in-network doctors, to dealing with for-profit in-patient facilities where mental treatment was literally playing the "Inside Out" movie while billing close to \$1,000 a day. After these experiences, Emilio became interested in providing easy access to treatment, advocacy, and information for mental illnesses in our community so he was elated to learn about the existence of iCare and was happy to participate.
