Outstanding energy. You guys are a GREAT blues band and I've judged this for years.

Absolutely wonderful original numbers. Fantastic soul blues sound. Loved dark clouds. I don't know if there is still an award for outstanding guitar player but if those I've seen over the years, you should absolutely be in the running.

Last \$2 was a fantastic choice for a cover while in Memphis and worked so well standing under the STAX sign. So glad you have a B3 player for a STAX number. You really made the number your own with that arrangement which is fairly rare when bands play covers in this competition. You have an outstanding future as a band. You should regularly be on Sirius at a minimum. keep doing more of this.

You guys are outstanding. 25 minutes is not a very long set, and you showcased the strong instrumental tent you have. You have really perfected being a soul blues act - like the Tri-State festival sound. I think you could gain more points on originality for purposes of the competition by showcasing your personalities a little more. High points for stage presence as a front man, but lost a point for phoning in the band look with family reunion type t-shirts. you guys should all look as cool as you are. Like a couple one liners about being from the country. That's fun. You are clearly proud of being country boys run with that a little. Like Super Chikan is fantastic, but also remembered for all his quirks. I've been to a lot of family reunions and country picnics. You are the real deal..... but I wanna to see your personalities more for originality. But very very strong overall

You are my highest scored band of the competition. You have received higher scores from me than people who won this competition did.
