

The V.I.B.E.S. (Vibrational Individualized Body Enhancement System) from Bioharmonic Technologies is a delivery system that uses sound, energy, frequency and vibration for clearing cellular memory and optimizing your mental and emotional expression while balancing your brain chemistry and body physiology. It awakens the most basic parts of the nervous system and human physiology while creating ease in relaxation, meditation, and activates and detoxifies the body. It is a non-touch healing therapy that works on a “quantum level” to address physical, mental, and emotional imbalances together. It consciously brings vibrational frequencies back into harmonic alignment, returning you to a preferred state of balance. It has the capability to transform, restore, recover, balance and ground while assisting the body to self-heal. The V.I.B.E.S. can promote acceleration of the body’s self-healing processes by increasing the cerebral frequency and vibration—ultimately achieving a state of balance, health, and wellness.

The theory behind the technology is that everything is energy vibrating at a specific frequency; the body and energetic patterns have the possibility to change when exposed to the proper frequency, raising the vibratory rate. Some of the benefits of this groundbreaking new technology that offers Full Body Neurological Entrainment include the following: (1) optimize your human potential, (2) reduce stress, (3) increase relaxation, (4) release shock and trauma, (5) boost your immune system, and (6) physical and emotional Recovery.

Bioharmonic Technologies has developed specialized musical programs called Sonic-ceuticals™ that combine harmonic frequencies, brainwave entrainment technology, sacred geometry, and other mathematical ratios for supporting specific physiological effects. The system vibrates specialized music directly into the cellular matrix of the body. This process is known as Full Body Neurological Entrainment, or ‘Body Hypnosis’. The V.I.B.E.S. with harmonic resonant music and full body vibration entrains your entire body as well as your brain.

### ***Vibrational Sound Technology***

V.I.B.E.S. are human optimization technologies that vibrate low level harmonic frequencies through the largest sensory organ in your body, the skin. The skin can perceive frequencies much lower than human hearing, (0.5-100 hz), and is the largest detoxification organ in the body.

### ***Advanced Cellular Entrainment***

The skin has the ability to affect pain, inflammation, temperature, and cellular memory patterns through direct stimulation. V.I.B.E.S creates a deep level of relaxation and a rapid state of meditation as you lay in the field of harmonic sound, energy, frequency and vibration.

### ***A Growing Library of Sonic-ceuticals™***

Sonic-ceuticals™ from Bioharmonic Technologies are a unique recipe of modulated brainwave states, sacred geometry, and natural signatures combined with world instruments to create a deeply therapeutic and musically pleasing experience.

After a session, it is normal to have the following common reactions although some may experience no reactions at all. These signs can be indicative that the body is beginning to respond to the treatment and it is starting to have an effect:

Tiredness

Tickling sensation

Temporary feelings of discomfort

Dizziness

Nausea

Frequent need to urinate

Strong smelling urine

Aches

Shivers

Perspiration

It is recommended to be hydrated before and after the session. This treatment does not replace any medication and/or treatment prescribed by your doctor nor is a medical treatment, device or methodology. It is not used to diagnose/cure medical disorders nor is it used as a medical treatment for disorders and has not been approved for any medical purpose by the FDA or any other governing agency. It is advised to consult your doctor about any concerns you may have prior to use. I understand that it is not possible to predict the outcome of the session and how my body will react, therefore consequently, there can be no guarantee as to the results of using this technology. Liability and possible reactions, known or unknown, are the risk and responsibility of the client. Please sign below acknowledging you read and agree to this disclaimer.
