The Magic of Christmas!

Dear Friends,

Christmas is the most magical time of the year! Ever since I was a little girl I have loved the smells, the excitement, the meaning, the anticipation, the giving, the traditions and the *magic* of Christmas!

I have fond childhood memories of my family dressed in our matching p.j.'s each Christmas Eve, gathered 'round the tree as we sang carols . . . and then trying to get a little sleep that night as I waited with great eagerness to see what Santa left under our tree on Christmas morning. The gift I looked forward to most was a new doll, and year after year, I found at least one with my name on it. The smile of joy on my face on the cover photo says it all!

This holiday season I want to help spread that magic and put a smile on your face Christmas morning with a Marie Osmond Doll under your tree. We've created a fabulous line-up of dolls to choose from that will beautify your home; bring a smile to your face; and add a little "magic" to your holiday.

May the magic of Christmas find its way into your heart and home this holiday season!

Speaking of heart and home, after making clothes for her many boys, my mother was delighted to finally sew something pink! Mother loved making baby clothes for me and because of her talents and design abilities as a seamstress; I was the best dressed girl around! So when I decided to sculpt myself as a toddler, there was one person who was the obvious choice to design the dress . . . my mother!

In 1991, the year I launched my doll line, my sweet mother went to work sketching and swatching a handful of potential designs for my dolls. The designs got misplaced, only to end up in the debris of my house fire, unscathed. What a blessing!

I knew exactly which of mother's designs I wanted to use for Baby Olive Marie . . . the one with the tiny pink rosebuds. (You see, mother and I have a little history together when it comes to "roses" . . . even if they're paper!) It gives me great honor to present to you a very special doll that has become the sentimental favorite of mine because it was designed by the "original" sculptor of the baby whose name it bears, *Baby Olive Marie*.

Love,

Marie Osmond
