

I been walking around.. looking for myself... to see what I could see
I get lost... in the time I spend... being me.

I've been walking round looking for.....some one,
A story from the past to rescue me.

I've been looking round for..... every tiny thing.

I've been looking roundfor you....in me.

Time for change in my soul
Kinda hard ...to take it alone.
But I'm gone.
Yes, I'm gone.

I been walking round, looking for myself...
drove up and down your street
I get lost in the time I spend...being free. With No relief

I've been driving round.... Got a pin hole in my heart...
One for very choice ...I never made,
Drove out by the lake...her ghost was standing there.
She gave me one more smile And she vanished in the air..

*Take me down ...I been going strong
There's Nothin here... so I'll be moving on.*

*Patch up the holes... In the stories that I own
And then I'm gone...
Oh yeah, I am gone.*
