

I hear you calling ...  
But you can't come in  
Just another vampire who's taking it on the chin

You can... have my money,  
Take every dime  
But you can't take what's in my heart

Kill the phone .... And go to bed,  
I need some time to understand  
There is... no harm...that creeps in here tonight..  
But there's... Vampires in the Light.

The words keep spinning  
No sleep in sight  
She's living rent free, in my head tonight

Who the hell can blame her..  
IT all falls on me.  
I am the one ...who's... rolling up his sleeve.

Kill the phone.... go to bed,  
I need some time to understand  
There is... no harm...that creeps in here tonight..  
But there are... Vampires in the Light

### ***Pitch Change***

If you hear me calling ...  
Don't let me in...  
Just another vampire who's taking it on the chin.

Chaos and Misery.  
Icarus Flying high.  
A volunteer...for a mess that isn't mine.

Kill the phone.... go to bed,  
I need some time to understand  
There is... no harm...that creeps in here tonight..  
But there are... Vampires in the Light
