

Who We Are

Tech2i is a certified 8(a), women-owned small business and CMMI Level 3 firm headquartered in Herndon, VA. For over 6 years, we delivered mission-critical IT solutions to the public sector and commercial customers.

Our team combines deep technical expertise with domain knowledge in healthcare and public sector operations. We hold active GSA schedules and maintain CMS-approved technology standards, positioning us as a trusted partner for agencies requiring rapid deployment, security compliance, and measurable results.

AI Innovations

SAIL HD Platform (Help Desk)

Automate, optimize, prioritize and resolve HelpDesk tickets. SAIL HD features open architecture and omni-channel versatility.

AskADA Solution (Eligibility)

Navigate Medicaid/CHIP policies & state-specific rules with ease. AskADA uses Human-in-the-loop principle & automates eligibility determination.

Tak2Data (Digital Analyst)

Simplify talk to our digital analyst in natural language to get complex data analysis done in real-time. Helpful visualizations are included.
