We are excited to announce an upcoming collaboration called “Shift Happens Art Collective”. We will be bringing together a collective of artists to work on murals and various artwork together, but we need your help!

It is our hope to meet regularly at our studio located at Arizona Center to discuss art and mural opportunities and plan for future art and mural collaborations for our community’s youth and families. If you are interested in collaborating, please reply to this email or pop by our studio during business hours (9am – 5pm\*).

We also hope to share this space with other community engaged story tellers and artists to display and sell their work as well as provide them with workspace.

Please extend this invitation to artists, storytellers, and community organizers in your circles. This is a collaborative effort, and we would like to connect with as many individuals as possible.

Lastly, thank you for your generous support this month as we close out National Suicide Prevention and Awareness month.

Best,  
Keiko

*\*Since it's just me in the studio at this time, I will have a door sign indicating times when I will be away from the studio during the 9am-5pm timeframe*
